VOL. XXXVIII BELLEFONTE, PA., THURSDAY MORNING, NOVEMBER 8, 1906. NO 446

Gen'l James A Beaver

PENNSYLVANIA REPUBLICAN

A Great Victory for Civic Righteousness.

STUART IS A WINNER

Rotan Victorious in Philadelphia—Barclay for Congress by a Good Majority.

THE RESULT IN CENTRE COUNTY.

The result of the election Tuesday is that the Republican party in State and Nation have won a handsome victory, President Roosevelt is indorsed the muck-rakers forced to the wall. It was the most exciting campaign in Pennsylvania in twenty-five years and has ended in a triumph for Edwin S. Stuart, Republican, for Governor over Lewis Emery Jr., the Democratic—Lincoln candidate. Stuart's majority will be 100,000

Samuel P. Rotan, Republican, is elected District Attorney in Philadelphia by a majority of 20,000 over D. Clarence Gibboney, democratic and city party.

The incoming legislature will be strongly republican, not however as overwhelmingly as it was two years ago.

Capt. Charles F. Barclay is triumphantly elected to congress in the 21st district over Hugh S. Taylor. The latter lost Centre County by a small majority.

Henry C. Quigley, Republican, is defeated for State Senator in the Centre—Clearfield district by George M. Dimeling, Democrat. Quigley carried Centre but lost Clearfield.

John Noll, democrat, is re-elected to the legislature from Centre county, defeating C. T. Fryberger.

The following is the official vote in Centre county.

Governor.

Stuart, R.	3569
Emery, D.	3772

Lieut. Governor.

Murphy R.	3554
Black D.	3715

A Sister's Love.

A Boston clergyman whose work takes him among the poor of that town tells a pretty story of sisterly love existing among the humble and unfortunate. One day a pale and ragged girl of about ten years was seen going along the street carrying on her back her crippled brother, nearly as old as she. A stranger stopped her by saying that she was overexerting herself. "He is too heavy for you to carry," he said. The child of the ghetto looked up at him reproachfully, saying: "He ain't heavy. He is my brother."

Her Relations.

We note that the handsome young woman wears many military buttons, badges, and other mementoes.

"Are you the daughter of the regiment?" we ask.

"Oh, no, sir," responds the gentle thing; "but I have promised to be a sister to all the officers."

At this juncture we might have made a witty remark about a call to arms and the penalty for disregarding it, but because of her blushes we refrained.

STUART SWEEPS KEYSTONE STATE.

Is Elected Governor By Nearly 100,000 Plurality.

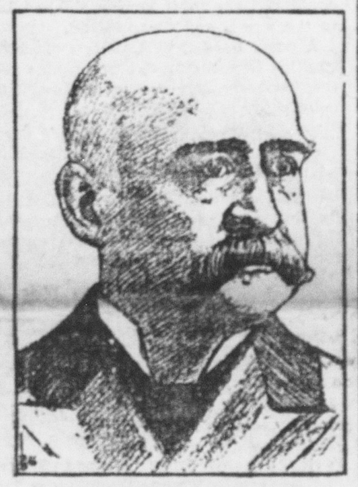
IMMENSE GAINS MADE.

Latest Returns From Countie's Show Heavy Losses to Fusion Candidate, Compared With Berry's Vote.

STUARTS BIG VOTE IN QUAKER CITY.

Philadelphia, Nov. 7.—The most exciting campaign in Pennsylvania in 25 years has ended in a triumph for Edwin S. Stuart, Rep., for governor, over Lewis Emery, Jr., Dem. and Lincoln Party, by a plurality of nearly 100,000.

Aside from the contest for governor and other state officers, the chief interest centered in the battle in Philadelphia for district attorney and in a



EDWIN S. STUART.

few of the congressional districts. Members of the house of representatives and county officers were elected in nearly every county, and state senators were chosen in 25 of the 50 districts.

Samuel P. Rotan, R., was elected district attorney in Philadelphia by a vote which will exceed 40,000, defeating D. Clarence Gibboney, who had the support of the reform forces and the Democrats.

The incoming legislature will be strongly Republican, although not so overwhelmingly for that party as it was two years ago.

The new personal registration law, which went into effect since the last election, reduced the normal vote in many of the cities. The corrupt practices act, which also became operative since the last election, also operated to cut down the vote in some localities. The act prohibits the use of money at elections, except for legitimate purposes, and is claimed to have deterred many poll workers from buying votes.

One of the chief issues in the state campaign was the new capitol, which was dedicated on October 4. The Fusionists claimed that several million dollars of overcharges and duplications are represented in furnishing and equipping the building. The Republican candidates pledged themselves if elected to honestly investigate those charges and to place the responsibility for the alleged extravagance where it rightfully belonged.

Of the congressional contests the hottest was that against John Dalzell, one of the Republican floor leaders. Dalzell was opposed by Dr. R. J. Black, who was nominated by the Fusionists because it was thought he would be popular with the labor unions, which are strong in this district.

There were contests against Congressman Acheson in the Washington district; Olmsted in the Dauphin district; Lafean in the York district; Lilly in the Bradford district, and Dale in the Lackawanna district. Thomas D. Nichols, district president of the United Mine Workers, was the Democratic nominee and was elected over Dale. Deemer was defeated by William B. Wilson, D., national secretary and treasurer of the Mine Workers. John Mitchell, president of the United Mine Workers, made speeches for Nichols and Wilson in their districts.

The state senators who were elected will serve in the next two regular sessions of the legislature, and will vote for a United States senator in the session of 1909, when a successor to Boies Penrose will be chosen. The state was apportioned by the legislature at the extra session, and Tuesday's election was the first under the new apportionment.

State Senators Elected.

The following state senators were elected:

2d district—John M. Scott, R.
6th—F. S. McIlhenny, F.
8th—John T. Murphy, R.
12th—A. B. Roberts, R.
14th—G. Frank Rowland, D.
20th—E. F. James, R.
24th—J. Henry Cockran, D.
26th—A. G. Dewalt, D.
28th—B. Frank Miller, D.; Warren F. Cressman, R.
30th—C. O. Templeton, R.
33d—E. F. Blewitt, D.
34th—G. M. Dimeking, D.
35th—W. C. Miller, R.
36th—J. K. P. Hall, D.
38th—C. H. Kline, R.
40th—R. J. Cunningham, R.
42d—Elliot Rodgers, R.
44th—J. A. Langfitt, R.
46th—D. J. Walton, R.
48th—Willis J. Halings, R.
50th—J. N. Campbell, R.

Goosebone Prophet, old and ill, Retires.

Reading's famous goosebone weather prophet, Elias Hartz, celebrated his ninety-first birthday anniversary Monday. Nearly eighty years ago he was taught how to read the bone. He has been making annual forecasts ever since and they have been so true as to cause comment.

Predictions made in the last few years were so accurate that Mr. Hartz was beseiged with letters from all over the country, and they are still coming in. They are answered by his daughter, and the writers are told that Mr. Hartz, owing to illness, will make no further predictions. Hartz announced his retirement last fall, but later repented and made his customary prediction.

This year, though, it is emphatically announced that he will be unable to continue his prophecies become known, a number of other prognosticators have appeared.

One farmer ventured the assertion that all indications pointed to a severe winter. He bases his prediction on the heavy crop of persimmons

The next prophet interviewed was a younger man, but he was just as positive in his prediction. He said: "Have you noticed that the trunks of trees are green with moss? When you see that it is a sure sign of a severe winter."

Following was an old man with a flowing white beard. He has still another sign which told him that the winter would be a severe one, said he: 'Whenever the chickens shed their feathers early the winter is sure to be severe. This was the case this summer."

"I know nothing about your signs," said another man, "but the sign by which I go is the height to which the weeks grow in the fall. You will notice that they have grown exceedingly tall this year. This is Nature's means for supplying the birds with food, for if the weeds are tall their heads will extend above the snow and their seeds will supply the birds with nourishments."

Trout.

Died, at her home in Hayes Centre, Hayes county, Neb., 18th, Annie, wife of E. P. Trout, in her 60th year. Mrs. Trout, whose maiden name was Ray, was raised at Gatesburg, Centre county this state, and was first married to Harry Lupole, who died leaving her with four children, two of whom preceded their mother to the grave, viz: Carl, who died at an early age, and May wife of Thaddeus Meyers, who died some years ago. The other two daughters, Amelia and Irene, both married, live on farms adjoining their mother's home in Hayes county. Three brother and two sisters also survive, namely Frank Ray, of Munson, William Ray, of Falls Creek, and David of Cambria county; Mrs. Amelia Shannon, of Houtzdale, and Mrs. Alton Gearhart of Altoona. Mrs. Trout was a most estimable woman, a loyal friend and a kind neighbor, whose ready aid and sympathy helped many sick and sorrowing to bear their burdens, and enshrined her memory in their hearts and when the family moved to Nebraska some dozen years ago, many warm ties of friendship bounded Mrs. Trout to Philipsburg where she had lived many years.

She was buried at Hayes Centre, October 20th.

Unclaimed Letters

The following letters remain in the Bellefonte P. O. uncalled for November 5th 1906.

Edw. M. Bassett, Anna M. Bedlyon, Mrs. Henry Earon, R. W. Pease.

ELECTIONS ELSEWHERE.

Republicans Control Congress by Big Majority.

NO MATERIAL CHANGE.

Democrats Gain Representatives in Some States and Republicans in Others--Longworth Re-elected.

PRESIDENT ROOSEVELT ENDORSED.

Elections were held in 42 states, and while the results in a number of instances were of unusual interest, it may be said that generally speaking there were no great surprises.

Throughout the south the Democratic state and congressional tickets have been elected by the usual majorities. In the west and east the states that were aligned two years ago in the Democratic or Republican columns show no material change, the Democrats making gains in some instances and the Republicans in others.

The Republicans retain control of congress by a good majority.

In Chicago it is estimated that the Independence League ticket polled 40,000, but there was a Republican plurality for the state officers.

Michigan, Iowa, New Hampshire, North Dakota, Connecticut, Minnesota, Indiana and Wisconsin have rolled up Republican pluralities, although there was some falling off from the usual vote in Iowa.

Nebraska shows big Republican gains. Ohio also shows Republican gains over the Pattison vote of last year. The Republicans expect a plurality of 70,000 in the state.

The constitution of the new state of Oklahoma will be written by Democrats. The Indians voted the Democratic ticket almost solidly. Oklahoma also went strongly Democratic in choosing delegates to the constitutional convention.

New Mexico and Arizona have voted favorably on the proposition to enter the Union jointly as a single state.

Governor Hoch is re-elected in Kansas by a slightly reduced majority.

The result in Missouri was in doubt at a late hour, the Democrats expecting to gain some of the congressional districts they lost two years ago.

Congressman Nicholas Longworth was re-elected in Cincinnati.

Congressman J. W. Wadsworth, for many years chairman of the house committee on agriculture at Washington, was defeated in the 34th New York district.

The Republicans carried Utah, Wyoming and Washington, and seem to have lost Nevada, while both parties are claiming Colorado.

Congressman Babcock, of Wisconsin, formerly chairman of the Republican congressional committee, failed of election.

In Rhode Island James H. Higgins, D., is elected governor.

Congressmen Elected.

TEACHERS INSTITUTE.

Will be Held in Bellefonte From November 12th to 16th.

Bellefonte will soon be the scene of pretty animation and the recipient of a large amount of practical knowledge, because in a little over two weeks the Centre county Teachers' Institute will be held here. From Nov. 12th to 16th, our little city will contain the pretty "school marms" and their more austere brother workers. Every year the occasion is looked forward to with great pleasure and expectation of good things to be gained by attendance on the part of the teachers and in a spirit of sympathy and welcome by our fellow townsmen. This year, the sixtieth annual session will eclipse any institute ever previously held. The instructors engaged for the session are sufficient ground for predicting a fine week of work and are as follows:

Dr. Henry Houck, Deputy Superintendent Public Instructor; Dr. Chas. C. Miller, President Lima College; Prof. Chas. H. Albert, Bloomsburg, Pa.; Supt. A. Riest Rutt; Ardmore, Pa.

They will all be present, and it would be hard to find a better equipped number of persons for the task. Prof. Albert was here last year and not yet have his impressions faded from the minds of the teachers who heard his address. The music will be under the supervision of Prof. H. Meyer, ably assisted as pianiste by Miss Bessie H. Dorworth. A departure this year will be in the increased number of entertainments.

Monday evening—Lecture, "Napoleon" by Dr. Chas. C. Miller.

Tuesday evening—Lecture, "The Reveries of a Bachelor," by Dewitt Miller.

Wednesday afternoon—Lecture, "Travels in the Orient" by Dr. Henry Houck.

Wednesday evening—Recital of Original Poems by Capt. Jack Crawford "The Poet Scout."

Thursday evening—Penn State music club will give a concert in Petriken Hall.

Every entertainment scheduled is of the very best, and no one will wish to miss one of them. Let us then prepare to entertain the small army of teachers soon to invade our town, and prove that now, as in the past, Bellefonte is interested in the instructors of the youth of Centre county.

Death of David L. Miller.

David L. Miller, one of Ferguson township's best know and most substantial citizens, died at his home at White Hall at seven o'clock Thursday morning, of heart trouble. Though he had not been in the best of health for some time he was aronnd attending to his work as usual and his death was quite sudden and unexpected.

Deceased was born at Baileyville January 12th, 1841, thus being in his sixty-sixth year. After he grew to manhood he followed milling for a number of years and later bought a farm and has since tilled the soil. He proved one of the most successful farmers in the county. In August, 1862, he enlisted as a private in Company H. 148th regiment and until the close of the war. He was a brave soldier and all his life has born the marks of wounds received at the battle of Chancellorsville. He was one of the leading members of Capt John O. Campbell Post, No. 272, of Pine Grove Mills.

He was twice married and is survived by his second wife and four children to his first wife, as follows: Mrs. James Gardner and Mrs. Matilda Crissinne, of Tyrone; Mrs. Cyrus Duck, of State College, and James A. S. Miller, Esq., of Bellefonte. He was a faithful member of the Lutheran church and Rev. Bergstresser will officiate at the funeral which was held at 9 o'clock Friday morning. Interment was made in the new cemetery in Pine Grove Mills.

Glenn—Foreman.

Quite a pretentious home wedding was that of Samuel Glenn, of Lemont, and Miss Edith Foreman, daughter of Mr. and Mrs. D. Frank Foreman, which took place at the home of the bride's parents in Potter township at 11 o'clock Wednesday morning. About eighty guests were present to witness the ceremony, which was performed by Rev. Gress, of Centre Hall. The attendants were Miss Clara Robb, of Bellefonte, as bridesmaid, and John Foreman as best man. Following the ceremony an elaborate wedding breakfast was served. Tonight Mr. and Mrs. Glenn will be given a reception at the home of the bridegroom's parents and later they will take up their residence in Altoona, where Mr. Glenn holds a good position.

WANTED—Two girls to set type at the Centre Democrat office—Permanent positions at good wages. Apply at office.

TRADE REPORTS GOOD

Only Drawback in Business is Railroad Freight Congestion.

RETAIL TRADE IMPROVES

Returns From Iron and Steel Industry Could Not Be Brighter and Other Factories Have Abundant Orders On Hand.

New York, Nov. 3.—R. G. Dun & company's Weekly Review of Trade says: Colder weather has removed one of the drawbacks to seasonable distribution of merchandise, but there is still much complaint of traffic conditions. Congestion on the railways was increased by the destruction of vessels during the recent gulf storm, and a much heavier tonnage of freight is delayed than usual, although there is always a car famine at this season. Retail trade shows improvement in nearly all sections, and mercantile collections are more prompt. Returns from the iron and steel industry could not easily be brighter, and footwear factories have abundant orders on hand. After several weeks of pressure to place contracts for cotton goods there is a natural season of quiet, but the mills have secured sufficient business to assure many months of activve machinery. Eastern wool sales have attained record proportions, but the late fall has delayed the demand for woolens. Primary receipts of wheat are not in keeping with a maximum crop on account of freight delays.

As the season advances, with increasing urgency for delivery of iron and steel, regardless of further advances in prices, even the most conservative purchasers give up hope of better terms and are struggling to place contracts before another fraction is added to the price or another month to the remoteness of delivery. Spot quotations for pig iron are really nominal, because nothing is offered, and very fancy prices would be paid for billets that could be shipped immediately. Foreign trade in this industry is large, despite domestic needs.

After much irregularity, the wheat market shows a substantial advance for the week. Flour output increased somewhat, but it is still far behind the production a year ago, and mills find profits curtailed by the firmness of raw material. Coarse grains are less active and fluctuate within narrow margins.

Exports for the week, as compiled by Bradstreets, are as follows: Wheat, including flour, exports from the United States and Canada for the week ending November 1 aggregated 4,492,974 bushels, against 5,188,817 last week, 6,283,399 this week last year, 1,482,202 in 1904 and 3,672,888 in 1901. For the past 18 weeks of the fiscal year the exports are 62,666,469 bushels, against 33,255,827 in 1905, 23,934,163 in 1904, and 107,992,486 in 1901.

Corn exports for the week are 1,300,221 bushels, against 1,495,111 last week, 1,009,210 a year ago, and 346,927 in 1904. For the fiscal year to date the exports are 14,616,159 bushels, against 18,986,773 in 1905, and 10,641,835 in 1904.

Impoverished Soil

Impoverished soil, like impoverished blood, needs a proper fertilizer. A chemist by analyzing the soil can tell you what fertilizer to use for different products.

If your blood is impoverished your doctor will tell you what you need to fertilize it and give it the rich, red corpuscles that are lacking in it. It may be you need a tonic, but more likely you need a concentrated fat food, and fat is the element lacking in your system.

There is no food that is so easily digested and assimilated as

Scott's Emulsion of Cod Liver Oil

It will nourish and strengthen the body when milk and cream fail to do it. Scott's Emulsion is always the same; always palatable and always beneficial where the body is wasting from any cause, either in children or adults.

We will send you a sample free.

Be sure that this picture in the form of a label is on the wrapper of every bottle of Emulsion you buy.

Habit-forming Medicines.

Whatever may be the fact as to many of the so-called patent medicines containing injurious ingredients as broadly published in some journals of more or less influence, this publicity has certainly been of great benefit in arousing needed attention to this subject. It has, in a considerable measure, resulted in the most intelligent people avoiding such foods and medicines as may be fairly suspected of containing the injurious ingredients complained of. Recognizing this fact some time ago, Dr. Pierce, of Buffalo, N. Y., "took time by the forelock," as it were, and published broadcast all the ingredients of which his popular medicines are composed. Thus he has completely forestalled all harping critics and all opposition that might otherwise be urged against his medicines, because they are now OF KNOWN COMPOSITION. Furthermore, from the formula printed on every bottle wrapper, it will be seen that these medicines contain no alcohol or other habit-forming drugs. Neither do they contain any narcotics or injurious agents, their ingredients being purely vegetable, extracted from the roots of medicinal plants found growing in the depths of our American forests and of well recognized curative virtues.

Instead of alcohol, which even in small portions long continued, as in obstinate cases of diseases, becomes highly objectionable from its tendency to produce a craving for stimulants, Dr. Pierce employs chemically pure, triple-refined glycerine, which of itself is a valuable remedy in many cases of chronic diseases, being a superior demulcent, antiseptic, antiferment and supporting nutritive. It enhances the curative action of the Golden Seal root, Stone root, Black Cherrybark and Bloodroot, contained in "Golden Medical Discovery," in all bronchial, throat and lung affections attended with severe coughs. As will be seen from the writings of the eminent Drs. Grover Coe, of New York; Bartholow, of Jefferson Medical College, Phila.; Scudder, of Cincinnati; Ellingwood, of Chicago; Hale, of Chicago, and others, who stand as leaders in their several schools of practice, the foregoing agents are *the very best* ingredients that Dr. Pierce could have chosen to make up his famous "Discovery" for the cure of not only bronchial, throat and lung affections, but also of chronic catarrh in all its various forms wherever located.

IMMENSE WORK ON CANAL

Some Idea of Vast Amount of Excavating to Be Done at Panama.

Washington, Nov. 3.—Some idea of the vastness of the Panama canal project is contained in a circular issued by the commission for the information of prospective bidders for constructing the canal. The amount of excavation is staggering in extent. The summary shows that the estimated excavation and structural material in these sections are approximately as follows:

Colon section, 9,455,000 cubic yards; Mindi, 11,000,000; Gatun locks, excavation, 3,660,000 yards; concrete, 1,102,780 yards; steel gates, 29,220,000 pounds; Gatun dam, earth filled, 21,200,000 yards; Gatun regulating works, excavation, 1,580,000 yards; concrete, 180,000 yards; sluices, 5,000,000 pounds; lake section, excavation, 24,000,000 yards; Culebra, excavation, 39,000,000 yards; Pedro Miguel, excavation, 6,835,000 yards; Pedro Miguel, lock excavation, 1,700,000 yards; embankment, 1,100,000 yards; back fill, 390,000 yards; concrete, 513,612 yards; cast iron, 732,000 pounds; steel gates, 19,500,000 pounds; Lake Sosa section, excavation, 1,680,000 yards; Sosa, locks excavation, 1,430,000 yards; back fill, 590,000 yards; Pedro Miguel, lock excavation, 1,119,000 yards; embankment, 1,100,000 yards; back fill, 490,000 yards; concrete, 514,612 yards; cast iron, 732,000 pounds; steel gates, 10,500,000 pounds.

MODIFY DEMANDS

Switchmen Present New Grievances to D., L. & W.

Scranton, Pa., Nov. 3.—The Delaware, Lackawanna & Western Railroad company switchmen's grievance committee, in session here since Tuesday, when their demands for increased wages and an eight-hour day were refused by General Superintendent Clarke, agreed upon modified demands which will be submitted to Mr. Clarke upon his return from New York, where he remains in conference with President Truesdale on the engineers' demands.

The demands are for a 10-hour day all over the system; night shift firemen, 41 cents an hour; helpers, 38 cents; day shift firemen, 38 cents; helpers, 36 cents. Chairman Flynn declared there would be no further modifications of these demands.

SOLDIER'S DRAMATIC SUICIDE

Prussian Drill Sergeant Gave Order to Recruits Who Fired On Him.

Treves, Rhenish Prussia, Nov. 3.—While several squads of the 29th regiment of infantry were in a field undergoing instruction with blank cartridges, in how to use their rifles on the firing line, a sergeant of one squad fell dead, with four bullets through his breast.

It developed that he had himself loaded the rifles of the squad with ball cartridges and directed the recruits to aim at his breast and pull the triggers when he exclaimed "His majesty, hurrah!" The cause of the sergeant's suicide has not been ascertained.

Marriage.

"What I want," said the young man, "is to get married and have a peaceful, quiet home."

"Well," said Farmer Corntossel, "sometimes it works that way, and then again sometimes it's like joinin' a debatin' society."—Washington Star.

American Armor Plate For Italy.

Rome, Nov. 2.—The order for 2100 tons of armor plate, valued at $1,000,000, for an Italian man-of-war, which was given to the Midvale Steel company, of Philadelphia, Pa., has been approved by the council of state. The Midvale company was in competition for this contract with five European firms, including the Krupps.

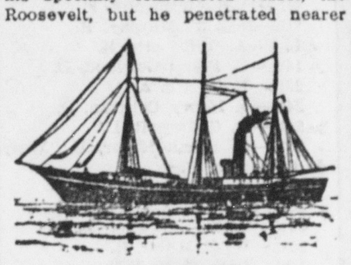
FAILED TO REACH POLE

Peary Reports His Experiences in the Frozen North.

HE BROKE ALL RECORDS

Penetrated Nearer the Pole Than Any Other Explorer and Reports No Deaths or Illness In Party—Ate Eight Dogs and Musk Oxen.

New York, Nov. 3. — The United States now holds the record of "furtherest north," 87 degrees 6 minutes. This feat was accomplished by Commander Robert E. Peary, of the United States navy. The intrepid Arctic explorer failed to reach the North Pole, as he had confidently hoped to do with his specially constructed vessel, the Roosevelt, but he penetrated nearer



THE ROOSEVELT.

to the pole than the Duke of Abruzzi's expedition, which had held the Arctic record, 86 degrees, 34 minutes. What Commander Peary did and his experiences during the past year in the frozen north are rather briefly, but certainly vividly, summarized in a communication received by Herbert L. Bridgeman, secretary of the Peary Arctic Club. This communication follows:

"Hopedale, Labrador, via Twillingate, "New Foundland, Nov. 2.

"Herbert L. Bridgeman—Roosevelt wintered north coast Grant Land, somewhat north Alert winter quarters. Went north with sledges February via Hecla and Columbia. Delayed by open water between 84 and 85 degrees. Beyond 85 six days. Gale disrupted ice, destroyed caches, cut off communication with supporting bodies and drifted due east. Reach 87 degrees, 6 minutes, north latitude, over ice, drifting steadily eastward. Returning ate eight ate dogs. Drifted eastward, delayed by open water, reached north coast of Greenland in straitened conditions. Killed musk oxen and returned along Greenland coast to ship. Two supporting parties driven on north coast Greenland. One rescued by me in starving condition. After one week recuperation on Roosevelt sledged west, completing north coast Grant Land, and reached other land near 100th meridian. Homeward voyage incessant battle with ice, storms and head winds. Roosevelt magnificent ice fighter and sea boat. No deaths or illness in expedition. PEARY."

After furnishing the Associated Press the contents of Commander Peary's report, Mr. Bridgeman said that the receipt of any news from the explorer now was quite a surprise to him, because he had supposed it had become too late in the season for Commander Peary to send news of his venture. Mr. Bridgeman added that the message spoke for itself, and that since he did not know more of the results of Commander Peary's effort to reach the North Pole than the public did he could hardly comment upon the dispatch. There was little doubt, however, he said, that Commander Peary was coming home.

The previous record for the point nearest the pole was made by Captain Cagni, of the Duke of Abruzzi's Italian expedition, who reached 86.34 north, or within 237 statute miles of the pole. The point reached by Peary, 87.6, placed him about 203 miles from the North Pole.

Commander Peary's polar steamship, the Roosevelt, left New York on her long journey in search of the North Pole July 16, 1905. The Roosevelt was built in Maine and came down to New York, where she was refitted before starting. The vessel, for which funds were furnished by the Peary Arctic Club of New York, was designed by Naval Architect William E. Wyant for Arctic exploration. The Roosevelt had a crew of 20 men, under Captain Bartlett.

When nothing had been heard from the Roosevelt by last July, friends of the Arctic explorer, who had expected a message of some kind in May or June, began to be worried at the long delay. This anxiety, however, was not shared by the members of the Peary Arctic Club, who then said they did not expect to hear from Peary until October or November. It was then explained that his only way of getting news down from the north was by whaling ships.

THAW'S TRIAL SECOND ON LIST

Slayer of Stanford White May Soon Be Called to Face Jury.

New York, Nov. 5.—The case of Harry K. Thaw is No. 2 on the revised list of homicide cases and may be called this week. Thaw, who has been incarcerated since last June for the killing of Stanford White, the architect, at the Madison Square roof garden, sent this note to the newspaper men who made inquiries of him:

"I do not care to talk in the absence of Mr. Hartridge."

On October 1 there were 31 murder cases in the Tombs. Since that date the list has been reduced to nine. The case ahead of Thaw's is that of Raffaelo Gascone, whose trial is on the calendar for the early part of this week.

PRESIDENT IN WASHINGTON

Shot One Wild Turkey In Three-Day Hunt In Virginia.

Washington, Nov. 5.—President and Mrs. Roosevelt arrived in Washington Sunday night from Pine Knot, Va., where they went Wednesday last, accompanied by Surgeon General Rixey and Private Secretary Latta.

The party came in the special car Signet over the Southern railway. The President and Mrs. Roosevelt were driven direct to the White House.

The president spent his entire time while at Pine Knot in hunting wild turkeys. He had never shot one, although he often hunted them. His hunting companions were Dr. Rixey and C. J. Bishop, a local celebrity. Thursday, Friday and Saturday mornings the start was made at 4 o'clock, and the hunt kept up all day. It was not until late Saturday afternoon, however, that the president accomplished his desire. He shot a wild turkey, the only one shot during the three days of hunting. The president returned to Washington feeling much invigorated from his outing and decidedly pleased that he had added one more laurel to his hunting record.

Mrs. Roosevelt took several horseback rides, and as the weather throughout was ideal the outing was pronounced a decided success.

Active preparations for the president's Panama trip are in progress at the White House. The president will leave at midnight for Oyster Bay to cast his vote.

GAME WARDEN MURDERED

Shot and Killed By Polander He Attempted to Arrest.

Scranton, Pa., Nov. 5. — Charles Beachem, a deputy game warden, of Taylor, a suburb of Scranton, was shot and instantly killed by Michael Shemitzki, a Pole, in the woods about five miles from here, while attempting to arrest him for hunting on Sunday.

The crime was a most deliberate one, and was committed while the murderer was practically surrounded by four men. After shooting Beachem he flourished his revolver in the faces of the other men, and then, before they could recover their senses, dashed into the woods and disappeared.

A posse headed by County Detective Phillips is scouring the mountains for the murderer. His companion is at the county jail.

$1,600,000 For Missions.

Buffalo, N. Y., Nov. 3.—The general missionary committee of the Methodist Episcopal church has decided to fix the total sum to be appropriated for home and foreign missionary work for the coming year at $1,600,000.

Shot and Killed By Jealous Wife.

Hot Springs, Ark., Nov. 3. — John Picchi, a well-known saloonkeeper in this city, was shot and instantly killed by his wife because, it is alleged, of jealousy. The couple had been separated.

KILLED BY A FALL

Former Treasurer of Altoona Broke His Neck By Plunge Down Steps.

Altoona, Pa., Nov. 5. — Frederick Scheffield, former city treasurer of Altoona, fell down the steps at the Turnverein Singing Society and broke his neck. He died almost instantly. Scheffield's mishap was indirectly due to an accident a year ago, when he walked out the second-story window at his home while in a nightmare. He broke his ankle, was left a cripple, and the misstep he made at the head of the stairs was due to his injured ankle. Scheffield, who was born in Germany, was 56 years old, and was twice elected by the Democrats treasurer of Altoona.

Chorus Refused to Strike.

New York, Nov. 5.—Because they refused to inaugurate a strike for the purpose of forcing Heinrich Conreid, of the Metropolitan Opera house, to engage for this season the members of last year's chorus, who are members of the Chorus Singers' Union, the Central Federated Union suspended the delegates of the Theatrical Protective Association of Stage Hands and the Musical Mutual Protective Union, No. 310, of the American Federation of Musicians. The expulsion of the two unions came after an appeal by Miss Amy Roslyn, vice president of the Chorus Singers' Union, who told of her endeavors to force Mr. Conreid to keep a promise, which she said he had made one year ago, to employ members of the Chorus Singers' Union. Instead, she declared, he had imported a large number of persons from Europe to take the places of the unionists.

Immigrants For the South.

Charleston, S. C., Nov. 5. — The North German Lloyd steamship Wittekind arrived in this port from Bremen with 420 immigrants and a large cargo of fertilizer materials. The steamer sailed October 19. Commissioner of Immigration for South Caroline E. J. Watson was on board. The immigrants were about half Belgians and the remainder represented Germany, Switzerland, Austria and other sections of Europe. The newcomers are largely made up of mill operatives and have already gone to the upper part of the state to find positions in cotton mills. The second load of immigrants will leave Bremen for Charleston December 28.

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Chas. H. Fletcher and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is Pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. It cures Diarrhœa and Wind Colic. It relieves Teething Troubles, cures Constipation and Flatulency. It assimilates the Food, regulates the Stomach and Bowels, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS
Bears the Signature of

THE CENTAUR COMPANY, 77 MURRAY STREET, NEW YORK CITY.

REFUSED TO INDICT MISS KELLY

Philadelphia Grand Jury Ignored Bill Charging Her With Lewis Murder.

Philadelphia, Nov. 3. — The grand jury here ignored the bill of indictment charging Charlotte Kelly with the murder of Mrs. Maurice K. Lewis. Mrs. Lewis boarded at a house kept by Miss Kelly. On September 10 she was found dead in a closet in the boarding house, having been stabbed in the neck. No arrests were made in the case, but at an inquest Miss Kelly, who had been summoned as a witness in the case, was committed by the coroner. Mrs. Lewis' maiden name was Ness, and she came from Pittsburg.

Bursting Fly Wheel Killed Two.

Nashville, Tenn., Nov. 3.—An engine in the factory of the Standard candy factory ran wild and a fly wheel went to pieces. A flying spoke brained Hamp Crockett, a negro fireman. The same piece struck Dewitt Dortchaw, a negro watchman, cutting his throat and breaking his neck. The building shook as if from an earthquake, and the lights went out. Among the 75 employes were 25 girls, who were panic-stricken. In preventing them from jumping from the second-story one man was trampled. The girls could not be induced to descend the steps to where the dead men lay below and were finally removed with ladders.

Crapsey Appeal Before Court.

New York, Nov. 3.—The ecclesiastical court of review of the second department resumed its hearing of the appeal from the decision of the diocesan court in the diocese of Western New York, which convicted Dr. Algernon S. Crapsey, rector of St. Andrews Episcopal church, of Rochester, of heretical teachings. Dr. Crapsey was convicted at Batavia, N. Y., last April. The appeal was first heard two weeks ago before the court of review of the second department, and which, having heard the arguments of counsel, is now sitting to prepare its decisions. Adjournment was taken to November 16 next, when it is expected a dicision may be handed down.

RECORD ORDERS FOR RAILS

All of the Mills Are Assured Their Full Capacity For Next Year.

Chicago, Nov. 3—The Record-Herald says: More than 1,500,000 tons of steel rails have been ordered by the railroads for delivery in 1907, and within a short time, it is said, orders for as many more tons will be placed with the various mills. The total capacity of the steel mills for a year is about 3,000,000 tons, so all of them are assured their capacity orders for 1907.

Never before, it is stated, have so many orders for rails been placed by the railroads at this season. Some of the railroads have even been compelled to seek foreign rails in order to have assurances that their orders will be delivered in anything like the time they specify.

The demand for new rails does not come so much for new railroad construction as it does for renewals and for relaying tracks with heavier steel. The business of the railroads has increased so enormously that the old light rails are inadequate to carry the train loads and the heavy equipment and heavy power of today.

Attacked by Mad Bull.

William S. Rote of Swisedale had a narrow escape from a terrible fate on Sunday afternoon. He was attacked by a mad bull and but for a vacant space under a trough he would undoubtedly have been gored to death.

Mr. Rote was doing his evening chores when he was attacked in the barnyard by the bull. The bull charged upon him unexpectedly and knocked him down violently. He landed near a trough under which he managed to drag himself before the bull had time to follow up his attack and he was kept a prisoner there until the bull relaxed his vigilance when he made his escape.

Had Mr. Rote not landed near the trough he would surely have been goared to death.

W. H. GEPHART, Gen. Superintendent.

—Can you win? You realize that to win in anything these days, requires strength, with mind and body in tune. A man or woman with disordered digestive organs is not in shape for a day's work or a day's play. How can they expect to win? Kodol For Dyspepsia contains the digestive juices of a healthy stomach and will put your stomach in shape to perform its important function of supplying the body and brain with strength building blood. Digests what you eat, relieves indigestion, Dyspepsia, Sour Stomach, Palpitation of the Heart and Constipation. Sold by Green's Pharmacy.

—"Dr. Thomas' Electric Oil is the best remedy for that often fatal disease—croup. Has been used with success in our family for eight years." —Mrs. L. Whitecare, Buffalo, N. Y.

"WATCH THE KIDNEY"

"When they are affected, life is in danger," says Dr. Abernethy, the great English physician. Foley's Kidney Cure makes sound kidneys. C. M. Parrish.

—When a horse is so overworked it lies down and in other ways declares its inability to go further, you would consider it criminal to use force. Many a man of humane impulsee, who would not willingly harm a kitten, is guilty of cruelty where his own stomach is concerned. Overdriven, overworked, when what it needs is something that will digest the food eaten and help the stomach to recuperate. Something like Kodol For Dyspepsia that is sold by Green's Pharmacy.

THE WOMAN WHO COUGHED.

Catarrh had nearly ruined me. It had eaten away the partition in my nose; produced Asthma, Bronchitis, Rheumatism; ruined my stomach; in fact, gone all through my system. Then Grip finished me. I was a wreck; took cold at nothing; and coughed day and night. The doctors dosed me with opium and quinine. No good. Cough "cures"? Bah! Then Brazilian Balm renovated me. Killed every germ. Took 10 $1.00 bottles. Now I'm like a girl of 18.

MISS L. L. CLARK. Indianapolis.

IRON AND STEEL EXPORTS

First Nine Months of Year Shows Increase of 25 Per Cent.

Washington, Nov. 5.—A bulletin issued by the departmentof commerce and labor on the exports in the iron and steel manufactures show an increase of 25 per cent. in the nine months ended with September and imports of a similar character show also an increase of practically 25 per cent. in the same period, as compared with the same months of the preceding year. Exports of all domestic products increased about 13 per cent., the bulletin says, and imports about 9 per cent. Pig iron and iron ore imports aggregated over $10,000,000 in the nine months ended with September, against about $5,000,000 in the corresponding period of 1905, and about $2,000,000 in 1904. Pig tin imports in the nine months of 1906 amounted to over $27,331,500, against $20,700,371 in 1905 and $17,[illegible]8,294 in 1904. Tin plate exportations, the bulletin says, also show a marked increase, the exports in 1906 being 23,074,151 pounds, against 14,562,152 in 1905, and 12,056,069 in 1904.

WILL SELL CHADWICK JEWELS

Seized As Smuggled; to Be Placed Under the Hammer.

Cleveland, Nov. 5. — Cassie Chadwick's famous smuggled jewelry was officially confiscated by an order issued by Judge Tayler in the United States district court, and women who are looking for Christmas bargains will have a chance to bid against each other when the gems are placed under the hammer by Marshall Chandler. The sale will take place as soon as the auction has been advertised, as required by law.

The jewelry that will be sold includes a pair of earrings of imitation pearls, one antique bangle, set with four ping stones; one antique bangle set with rubies and other stones and mother of pearls; one antique lion bangle on a chain, set with red and green stones and pearls, and a two-stone pearl ring. This jewelry was seized at Mrs. Chadwick's residence soon after her arrest by Customs Collector Leach, who claimed the duty had not been paid upon it.

Poured Coal Oil On the Fire.

Pittsburg, Pa., Nov. 5.—Mrs. Frances Santego, 34 years of age, was burned to death; Harold, a son, 4 years old, is in a critical condition from suffocation, and four other children had a narrow escape from a fire in the Santego home, in the Lawrenceville section of the city. Mrs. Santego was pouring oil on the fire, when the can exploded, throwing the burning fluid over her. She ran screaming to the street, where a detective extinguished the flames with his over coat. Although fatally burned, Mrs. Santego pleaded with the officer to save her son Harold. Mrs. Santego and the child were hurried to a hospital, where she died in a few minutes.

Prominent Reading Lawyer Dead.

Reading, Pa., Nov. 5. — Abner K. Stauffer, one of the most widely known members of the Berks county bar, died here, aged 70 years. He served in the army for three years during the Civil War. While in councils a few years ago he fathered the movement which secured for Reading its free bridges across the Schuylkill and its magnificent city park.

Killed In Pistol Duel.

New York, Nov. 5.—Salvatore Volaz was shot to death in a pistol duel on the East Side. A big crowd watched the fight, but the Italian with whom Volaz exchanged shots got away.

Old Japanese Prints.

The collector of old Japanese prints must be guided in his selection by the quality of the paper, which should be soft and vibrant, the fibrous tentacles upon its surface often forming shadows where it has been exposed to the dust. The register must be perfect, each color being confined absolutely to its prescribed space. Perfection in the register is an infallible guide. The colors must be soft and melting, in many cases one tone shading into another, not harshly determined by the lines of the block.—Extract From "Impressions of Ukiyo-ye," by Mrs. Dora Amsden.

Postponed.

A bashful young couple who were evidently very much in love entered a crowded street car in Boston the other day. "Do you suppose we can squeeze in here?" he asked, looking doubtfully at her blushing face.

"Don't you think, dear, we had better wait until we get home?" was the low, embarrassed reply.—Life.

Awkward.

Master—What! Both want a holiday tomorrow? I can't spare you both at once. Mary, you can have tomorrow and John the next day. John—Thank you, sir, but we wanted to get married, and I'm afraid, sir, it can't be done that way, but I'll inquire.—London Answers.

Verbal Chiropody.

The pastor, who was calling upon a member of his congregation, asked the name of the sprightly little daughter whose winning ways had attracted his attention.

"We call her Ella," said the little girl's mother.

"That is a good name, Mrs. Donley," remarked the minister. "It has been made classic by Charles Lamb."

"Well, to tell the truth," explained Mrs. Donley, "her name is Cornelia, but it's easier to call her Ella."

"I see," he rejoined. "And she probably likes it better. It is a painless extraction of a Corn."

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure,

F. J. Cheney & Co., Toledo, O.

We, the undersigned, have known F. J. Cheney, for the last 15 years, and believe him perfectly honorable in all business transactions, and financially able to carry out any obligations made by his firm.

Walding, Kinnan & Marvin, Wholesale Druggists, Toledo, O

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price, 75c. per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.

—Tree and tried friends of the family—DeWitt's Little Early Risers. Best for results and best to take. Rosy cheeks and sparkling eyes follow the use of these dependable little pills. They do not gripe or sicken. Sold by Green's Pharmacy.

Mr. Parish has been recommending this grand dyspepsia remedy for nearly two years now, and from actual experience knows there is no other remedy so sure to relieve sour stomach, bad taste in the mouth, coated tongue palpitation sleeplessness, wind belching, and other distressing symptoms of indigestion. And Pepsikola Tablets must cure you or there is nothing to pay. They will renew your energy, steady your nerves, regulate the action of your heart, improve your appetite, put new life in your stomach and will do more to tone up and improve your general health than any thing you ever heard of.

—If an article is imitated the original is always best. Think it over, and when you go to buy that box of salve to keep around the house get DeWitt's Witch Hazel Salve. It is the original and the name is stamped on every box. Good for eczema, tetter, boils, cuts and bruises, and especially recomended for piles. Sold by C. M. Parrish.

—A cold is much more easily cured when the bowels are open. Kennedys Laxative Honey and Tar opens the bowels and drives the cold out of the system in young or old. Sold by Green's Pharmacy.

—Can you win? You realize that to win in anything these days, require strength, with mind and body in tune. A man or woman with disordered digestive organs is not shape for a day's work or a day's play. How can they expect to win. Kodol For Dyspepsia contains the diegst ve juices of a healthy stomach and will put your stomach in shape perform its important function of supplying the body and brain with strength building blood. Digests what you eat, relieves Indigestion, Dyspepsia, Sour Stomach, Palpitation of the Heart and Consumpation. Sold by C. M. Parrish

The Charm of a Clear Complexion.

Nothing leads more to personal attractiveness than the clear skin and fresh rosy complexion that comes to those who use Laxakola tablets, 25 cents, a guaranteed cure for sallowness and constipation. C. M. Parrish.

—When a horse is so overworked it lies down and in other ways declares its inability to go further, you would consider it criminal to use force. Many a man of impulses, who would not willingly harm a kitten, is guilty of cruelty where his own stomach is concerned. Overdriven, overworked, when what it needs is something that will digest the food eaten and help the stomach to recuperate. Something like Kodol For Dyspepsia that is sold by C. M. Parrish.

—Asthmalene for pain—Dr. Thomas Electric Oil, strongest, cheapest, liniment ever devised A household remedy in America for 25 years.

First Aid to Beauty.

Nothing is more certain to benefit your complexion than a 25 cent box of Laxakola tablets They freshen the skin, give color to the cheeks, cure constipation, and give you a clear, rosy, healthy complexion C. M. Parrish.

Here's Just the Right Bowel Laxative

Gentle, Sure—Pleasant to Take—A Tried and True, Genuine, Nature's Remedy.

If you do not have free, easy and regular movements of the bowels you lack the prime first essential of good health. There's more harm done than mere uncomfortableness, sluggishness and bilious[illegible]ness—retention of fecal wastes in the bowels pollutes, irritates, poisons. You make[illegible] the circulatory system—the blood—a[illegible] scavenger instead of a fountain of[illegible] purest life and tainted vitality. The ills of constipation are[illegible] not trifling nearly always[illegible] are fraught with vital[illegible] significant Seek your[illegible] relief Nature! Accept gentle, natural[illegible] aid of Laxets Be sure not to[illegible] force and crowd the delicate organs the stomach! Avoid all the danger of powerful[illegible] and unknown medicines! Your safety[illegible] and your health always secured—if you[illegible] take Laxets. The formula is on every box—show it to your family physician. Laxets are put up in a[illegible] case in handy tablet form—one tablet taken before meals or on retiring always brings relief. Pleasing to take—the most potent yet gentle all remedies—a genuine help of Nature's bowel laxative which cures constipation. Recommended and for sale by

PIANO EXPERIMENTS.

Playing by Sweeping the Strings With a Feather.

Open wide your piano so that the wires are exposed. Over the wires place sheets of music, and when you strike a tone you will find that it has a rattling sound. If now you play a tune in the same manner, with the sheets of music still lying on the strings, it will sound as if the instrument were a banjo. Anyhow, it is a good imitation.

Now remove the music sheets and press down gently, but firmly, the keys belonging to any cord. Take the simple cord C, E, G, for example. The keys must be pressed down without sounding them and held down while some one gently brushes the strings with a feather or a straw. The effect will be as if the cord were played far away and is heard by you as very soft tones.

Change the cord, always pressing down the keys without sounding them, while the feather still sweeps the strings lightly. In this way you may modulate or play a slow piece, and the effect will be very beautiful, indeed, as if heard from a great distance.

The reason of this is that ordinarily a damper rests against each string, but when the corresponding key is struck or pressed down the damper is raised. In sweeping the strings with the feather, lightly, only the strings that are undampered sound, the others being held mute by the dampers, but if the touch of the feather is too heavy even the other strings may sound, so your care must be in making a light and delicate touch.

Now press down a key gently and hold it. Strike very hard the octave above this key, but do not hold it after striking the tone. When the wire of the tone struck has been sufficiently dampered, so that it does not sound so loud, the pressed down key will be heard to "sing" clearly, even though it was not struck. This is because every note struck is composed of several notes, being in reality a cord in itself, and each note contained in that cord causes the corresponding note in the keyboard to vibrate, or "sing," in sympathy if held down in like manner.

The other notes that will sound under these conditions will always be the fifth above the octave, the second octave and the third and fifth above that, and these tones that sound are called "overtones."

For illustration, if C in the lower part of the piano be struck, any or all of the notes that follow will sound if their keys are first pressed and held down.—Philadelphia Press.

GRANT DIDN'T WASH CLOTHES

But Two Soldiers Who Thought They Were Funny Did.

During the civil war several northern soldiers were lolling together one day just before the assault upon Corinth. A tall, strapping new recruit stepped up to them with a bundle of soiled clothes in his hand. "Do you know where I can get this washing done?" he asked.

Two of the group were practical jokers. A bright thought flashed into their heads and, as the sequel shows, unfortunately found expression. "Oh, yes, we know! Just go up there with your bundle," pointing to the headquarters of General Grant. "You will see a short, stout man"—describing the general—"who does washing. Take your bundle to him."

The recruit thanked them and walked off in the direction indicated. He gained entrance to headquarters and stood in the general's presence.

"What can I do for you?" said General Grant.

"I was directed here by a couple of soldiers. They told me that you did washing, and I have a bundle here."

General Grant probably enjoyed the situation, but his imperturbable face did not relax. He simply asked the question, "Could you identify those men again?"

"Yes, sir."

"Very well; you shall have the chance." Turning to an orderly, he directed him to call a guard, go with the recruit to where the jokers were standing ready to enjoy his discomfiture and let him identify them. "Take the men to the guardhouse, give them this man's bundle of clothing and make them wash it thoroughly. See that the work is well done."

The general was obeyed to the letter. —Popular Magazine.

Perpetuating the Species.

There is a stringent law in Japan that when one camphor laurel is cut down another must be planted in its place. The tree is hardy and long lived, attaining, to an enormous size. It is covered with a small leaf of a vivid green color. The seed, or berries, grow in clusters, resembling the black currant in size and appearance. And the wood is employed for every purpose, from cabinetmaking to shipbuilding.

He Guessed Right.

"Ah, me," exclaimed Mrs. Nagget, "my shopping was most unsatisfactory today!"

"Huh," grunted Nagget; "trying to get something for nothing, I suppose!"

"Yes, dear. I was after a birthday gift for you."—Philadelphia Press.

"Home, Sweet Home."

"Home, Sweet Home," Payne's song, was originally a number in the opera "Clari, the Maid of Milan," a production brought out in 1823. The opera was a failure, and nothing is now known of it save the one song, which became instantly popular. Over 100,000 copies were sold in the first year of its publication, and the sale in one form or another has been constant ever since the first appearance of this beautiful theme. The melody is a Sicilian folk song and was adapted to the words by Payne himself.

A PECULIAR FISH.

The Turbot's Ball and Socket Eye of Black and Gold.

Lying limp and slimy on a fishmonger's slab, or dry and sandy in the fishwives' baskets, the turbot is, perhaps, the least interesting of fish. When swimming in an artificial sea or lying on the sandy bottom it is the most attractive of all of the denizens of this mock ocean and whether at rest or in motion has an air of vigilance, vivacity and intelligence greater than that of any of the normally shaped fish. This is in part due to its habits and in part to the expression of the flat fish's eye. This, which is sunk and invisible in the dead fish, is raised on a kind of turret in the living turbot, or sole, and set there in a half revolving apparatus, working almost as independently as the "ball and socket" eyes of the chameleon. There is this difference, however, in the eye of the lizard and of the fish—the iris of the chameleon is a mere pinhole at the top of the eyeball, which is thus absolutely without expression. The turbot's, or "butt's," eyes are black and gold and intensely bright, with none of the fixed, staring stupid appearance of ordinary fishes' eyes. It lies upon the sand and jerks its eyes independently into position to survey any part of the ground surface, the water above, or that on either side at any angle.

If it had light rays to project from its eyes instead of to receive, the effect would be precisely that made by the sudden shifting of the jointed apparatus which casts the electric light from a warship at any angle on to sea, sky or horizon. The turbots, though ready, graceful swimmers, moving in wavelike undulations across the water or dashing off like a flash when so disposed, usually lie perfectly still upon the bottom. They do not, like the dabs and the flounders, cover themselves with sand, for they mimic the color of the ground with such absolute fidelity that except for the shining eye it is almost impossible to distinguish them. It would appear that volition plays some part in this subtle conformity to environment, for one turbot, which is blind, has changed to a tint too light and not at all in harmony with that of the sand.—London Spectator.

POINTED PARAGRAPHS.

No man is as dangerous as his threats.

When some men have nothing to do they become reformers.

If a man asks a candid opinion from a friend and gets it, it makes him mad.

Some people invariably get the worst of it, because they are always demanding the best of it.

As soon as a man gets a notion that his employer can't get along without him he is getting ready to lose his job.

There is always the danger that every man will become the hired man and every mother the hired girl to their family.

When a young man begins to make regular visits to a girl, how it would knock out the romance if it were said that he was calling on her to make arrangements for hiring a cook.—Atchison Globe.

Where Kit Marlowe Was Buried.

St. Nicholas, Deptford, possesses richer literary, artistic and naval associations than most churches of the river side. It was the parish church of John Evelyn and his tenant, Peter the Great, who delighted to make the parson drunk, as well as a long line of naval heroes. One of the many historic monuments quaintly commemorates Peter Pett, "the Noah of his age," who invented the frigate. A weird wood carving, representing the prophet Ezekiel in the valley of dry bones, is by Grinling Gibbons, who was "discovered" here by Evelyn. The parish register records the burial of Christopher Marlowe, "slaine by ffrancis Archer" on June 1, 1693.—Westminster Gazette.

Lincoln's Advice to Lawyers.

"Discourage litigation," was Lincoln's advice to lawyers. "Persuade your neighbors to compromise whenever you can. Point out to them how the nominal winner is often the real loser—in fees, expenses and waste of time. As a peacemaker the lawyer has a superior opportunity of becoming a good man. There will always be enough business. Never stir up a litigation. A worse man can scarcely be found than one who does this. Who can be more nearly a fiend than he who habitually overhauls the register of deeds in search of defects in titles whereon to stir up strife and put money in his pocket? A moral tone ought to be infused into the profession which should drive such men out of it."

It has been truly said that those words should be posted in every law office in the land, and it will be seen when Lincoln's record is fully examined that it was not a mere theorist who wrote them, but an active practitioner of wide experience who lived up to his own teaching.—Frederick Trevor Hill in Century.

Royal Gamblers.

The fascination which games of chance have exercised over gentle and simple is well illustrated in the description by Stow of the entertainment given by Henry Picard, mayor of London, in 1357, when the kings of France and Scotland, being prisoners in England, and the king of Cyprus on a visit to Edward III., the mayor "kept his hall against all comers that were willing to play at dice and hazard. The Lady Margaret, his wife, did keepe her chamber to the same intent." The mayor, having won 30 marks from the king of Cyprus, returned him the money, saying, "My lord and king, be not aggrieved, for I covet not your gold, but your play."—Chambers' Journal.

For Over Sixty Years.

Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cure wind colic, and is the best remedy for diarrhœa. It will relieve the poor little sufferer immediately. Sold by all druggists in every part of the world. Twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup" and take on other kind.

—The new Pure Food and Drug Law will mark it on the labels of every Cough Cure containing Opium, Chloroform, or any other stupifying or poisonous drug. But it passes Dr. Shoop's Cough Cure as made for 20 years, entirely free. Dr. Shoope all along has bitterly opposed the use of all opiates or narcotics. Dr. Shoop's Cough Cure is absolutely safe even for the youngest babe—and it cures, it does not simply suppress. Get a safe and reliable Cough Cure, by simply insisting on having Dr. Shoop's. Let the law be your protection. We cheerfully recommend and sell it. Green's Pharmacy Co.

BRONCHITIS FOR TWENTY YEARS.

Mrs. Minerva Smith, of Danville, Ill., writes: "I had bronchitis for twenty years and never got relief until I used Foley's Honey and Tar which is a sure cure."

—Bilious? Feel heavy after dinner? Tongue coated? Bitter taste? Complexion sallow? Liver needs waking up. Doan's Regulets cure bilious attacks 25 cents at any drug store.

No danger of consumption if you use Foley's Honey and Tar to cure that stubborn cough.

—When the tip of a dog's nose is cold and moist, that dog is not sick. A feverish dry nose means sickness with a dog. And so with the human lips. Dry, cracked and colorless lips meant feverishness, and are as well ill appearing. To have beautiful pink, velvet-like lips, apply at bedtime a coating of Dr. Shoop's Green Salve. It will soften and heal any skin ailment Get a free trial box, at our store, and be convinced. Large nickel capped glass jars, 25 cents. Green's Pharmacy Co.

Foleys Honey and Tar cures coughs and colds and prevents pneumonia. Take no substitute. C. M. Parrish.

—If an article is imitated, the original is always best. Think it over, and when you go to buy that box of salve to keep around the house, get DeWitt's Witch Hazel Salve. It is the original and the name is stamped on every box. Good for eczema, tetter, boils, cuts and bruises, and especially recommended for piles. Sold by Green's Pharmacy.

EAPLE C. TUTEN.

A Heart to Heart Talk With the Women and Girls of Pennsylvania.

Why a woman's page? Must women be fed on special and diluted diet? Can they not read as men read?

They do read as men read—and all that men read—and add the woman's page to it.

Rightly conducted, it is the earnest journalistic attempt to instruct more than to amuse; well edited, it steers clear of the encyclopaedia and the boudoir.

It should be all that a well rounded, interesting, helpful woman is—ready to put out a strong guiding hand wherever it is needed.

It must take itself seriously. It must be honest. It must reflect what really is, and suggest from experience what might be.

A great class turns to the woman's page for council, for advice, for suggestion. The ready made conventions of one set of people would be a misfit on another set, so why tell a woman who has to cook and wash for a husband and six children how to instruct a footman to receive the cards of callers?

A woman's page should be all things to all women.

No woman's page deserves success that does not give to its least reader a respectful hearing and the best advice in its scope. It must be kindly. It must inspire confidence.

It must enter into all the homely duties of the housewife with zest and enthusiasm. It must hold the affectionate friendship of its women readers.

All these things the woman's page of "The Philadelphia Daily Press" is and does—it is beyond doubt the most practical and truly and helpful woman's page ever offered Pennsylvania women. You cannot afford to miss even one day. Anne Rittenhouse.

Weather Proverbs.

The absence of dew for three days indicates rain. Heavy dew indicates fair weather. Clouds without dew indicates rain. If there is a heavy dew and it soon dries, expect fine weather; if it lies long on the grass, expect rain in twenty four hours.

With dew before midnight, the next day will surely be bright. If you wet your feet with the dew in the morning, you may keep them dry for the rest of the day.

If it rains before seven, 'twill clear before eleven. Rains from the south prevent drought, but rains from the west are always best. If it rains before sunrise, expect a fair afternoon. If it rains when the sun shines, it will rain the next day. Rain is likely to commence on the turn of the tide.

Marry the rain to the wind and you have a calm. If rain commences before daylight, it will hold up before 8 a. m.; if it begins about noon, it will continue through the afternoon; if it commences after 9 p. m., it will rain the next day: if the wind is from the northwest or southwest, the storm will be short; if from the northeast it will be a hard one.

Game Warden Battles in Woods for His Life.

Frank B. Whiteman, a state warden found three unnaturalized Italians hunting in the woods five miles from Altoona Thursday and arrested one. The others opened fire on him with their guns. One charge entered his right hip and carried away the calf of his left leg and the third entered his left foot.

Shooting after the fleeing men, Whiteman saw one drop, but the others aided in his escape. Whiteman then used his assailant's guns for crutches and made his way two miles through the mountain to a railroad tower, where an engine picked him up and took him to Altoona.

He is in a critical condition, and if he recovery may lose his leg.

—Each one of the first hundred purchasers of seats for the play "Lena Rivers" at the opera house on Thursday evening November 8th will receive a copy of Mary J. Holme's famous novel "Lena Rivers" on which the play is founded.

HUGHES IN NEW YORK

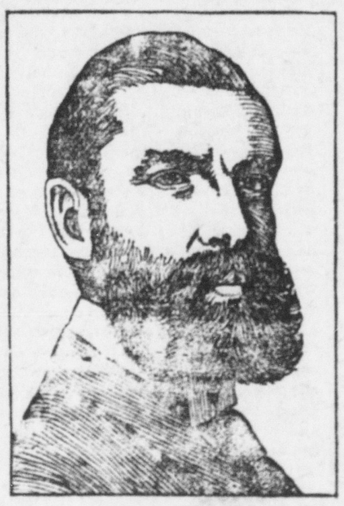
Is Elected Governor Over William R. Hearst.

PLURALITY IS OVER 50,000

Republicans Came to Greater New York With 124,000 Plurality, While Hearst Carried Metropolis By 75,000. Balance of State Ticket In Doubt.

New York, Nov .7.—According to the latest returns, Charles E. Hughes, the Republican candidate for governor, has been elected by 50,000 or more plurality. Outside of Greater New York, with 160 election districts missing, Mr. Hughes had a plurality of about 124,000. In Greater New York, with 69 election districts missing, William Randolph Hearst, the Democratic and Independence League candidate, had a plurality of 75,036. Mr. Hearst carried all the boroughs of the greater city, despite the fact that the early returns seemed to indicate that he had lost Brooklyn.

No definite figures are yet available as to the results with regard to the subordinate state officers, and both



CHARLES E. HUGHES.

Democrats and Republicans are claiming victories from lieutenant governor down.

The indications are that the state legislature will show but little change in its political make-up.

The Tammany judiciary ticket in New York county, with the exception of Otto Rosalsky, for general sessions judge, R., has been elected.

State Chairman Max F. Ihmsen, of the Independence League, claims that Hearst has been elected. He sent out telegrams to all Independence League watchers to be on guard to see that the full vote was counted.

Lewis Stuyvesant Chanler appeared at the home of Mr. Hearst early this (Wednesday) morning, and asked an immediate interview with Mr. Hearst. "I am certain," he said, "that Mr. Hearst is elected."

Following the interview, Mr. Hearst sent word to the newspapermen that he was not prepared as yet to make a statement.

Mr. Ihmsen later notified Mr. Hearst that the results in several strong Republican counties were being held back. Thereupon Mr. Hearst remarked, "So they are up to their old tricks, are they?"

In Brooklyn, where Senator Patrick H. McCarren made a bitter fight against Hearst, the latter carried the borough by a small plurality, 4000. At one time it seemed that Hughes had been successful in Brooklyn, but the late returns were all strongly in favor of the Democratic candidate.

Mr. Hearst has been given a majority of nearly 70,000 in Manhattan and the Bronx. Queens county, which includes Long Island City, has gone for Hearst by from 6000 to 8000, and Richmond (Staten Island) has also given the Democratic candidate a plurality.

As was generally expected, Mr. Hearst showed his greatest strength in the cities throughout the state and took out of the Republican column a number of the more important municipalities which heretofore have been Republican. Among the cities which gave Hearst a plurality were Buffalo, Rochester, Utica, Troy, Elmira, Rome, Little Falls and Johnstown. All of these, except Utica and Rome, were Republican two years ago. Mr. Hughes did not gain a single city. The Republican ticket was successful, but sustained serious losses in Syracuse, Gloversville, Amsterdam, Ithaca, Schenectady, Watertown and Plattsburg.

Great interest centered here in New York in the campaign waged for the judiciary ticket named by a committee of lawyers, headed by Joseph H. Choate and former Judge Alton B. Parker. The Tammany and Independence League joint ticket won over the non-partisan candidates by big pluralities.

State Senator Thomas F. Grady, of Tammany Hall, has been re-elected over Thomas Rock, who has been known in the campaign as "Eight Hour" Rock, and who claimed he had been "tricked" by the Independence League.

Throughout the state there has been a notable falling off in the vote from 1904, which was a presidential year. The Republican ticket showed the greatest loss in this respect, especially in the cities.

There were many odd turns to the balloting. Here in New York it was Richmond borough that defeated Mr. Hearst for mayor [illegible] ago, and it was Brooklyn with a big plurality, which helped him to make the race so close. Mr. Hearst barely carried Brooklyn Tuesday, but ran ahead in Richmond.

In Schenectady, one of the best organized labor cities in the United States, it was expected Mr. Hearst would have a substantial plurality. The Republican ticket was successful by 374 votes, as against a Higgins plurality of 1621 two years ago.

While both the state senate and assembly will be strongly Republican, the Democrats are claiming that they have made gains.

HEAVY REPUBLICAN GAINS

Vote For Governor of Pennsylvania By Counties.

Montgomery—Gives Stuart, R., a plurality of 1000. Same county gave Berry, F., 5614, a Republican gain of 6614.

Congressman Wanger, R., carried the county by 3500 plurality, and is elected in the district.

Algernon B. Roberts, R., carried the county by 2000 plurality for senator.

Charles A. Amber, John H. Rex, Josiah N. Landis and George A. Weide, R., were elected to the legislature by majorities of 1000 to 2000.

Lehigh—Gives Emery, F., 2500 plurality. Same county last year gave Berry, F., 2996, a Republican gain of 496.

Dr. R. K. Hartzell, D.; A. S. Haines, R., and William N. Decker, D., were elected to the legislature.

A. G. DeWalt, D., is elected to the state senate by 2300 plurality.

Northumberland—Gives Emery, F., a plurality of 2000. Same county last year gave Berry, F., 4631, a Republican gain of 2631.

Chester—Gives Stuart, R., 300 plurality. Same county gave Berry, F., 3001 plurality, a Republican gain of 3301.

William M. Hayes, Walter E. Greenwood, Ira McCord, Rs., were elected to the legislature.

Thomas S. Butler, R., for congress, has 2000 plurality in the county, and is elected from the district.

Delaware—Gives Stuart 2000 plurality. Same county gave Plummer, R., a plurality of 44, a Republican gain of 1956.

Thomas V. Cooper, Milton J. Lutz and Samuel Clyde, Rs., were elected to the legislature.

Thomas B. Butler, R., carried the county by 4000 plurality, and is elected from the district.

Columbia—Gives Emery, F., 2400 plurality. Same county last year gave Berry 2577, a Republican gain of 177.

William G. Creasy, D., was elected to the legislature by 2600 plurality.

Cochran, D., for the state senate, carried the county by 2100 plurality.

Clinton—Gives Emery, F., a plurality of 300. Same county gave Berry, F., a plurality of 1206, a Republican gain of 906.

Lackawanna—Gives Emery, F., 1800 plurality. Same county last year gave Berry 3476, a Republican gain of 1676.

Thomas D. Nicholls, D., for congress, was elected by 1200 plurality.

Armstrong — Gives Stuart, R., for governor, a plurality of 700. The county last year gave Plummer, R., 171 plurality, a Republican gain of 529.

Centre—Gives Stuart, R., for governor, a plurality of 200. The county last year gave Berry, F., 994 plurality, a Republican gain of 1194.

Dauphin—Gives Stuart, for governor, a plurality of 1400. The same county gave Berry, F., a plurality of 1087, a Republican gain of 2487.

Meyers, D.; Meals, R.; Wickersham, R., and Keen, R., were elected to the legislature.

Butler—Gives Stuart, R., for governor, a plurality of 1000. The same county last year gave Berry, F., 563 plurality, a Republican gain of 1560.

Cumberland — Gives Emery, F., for governor, 400 plurality. The same county last year gave Berry, F., 1994 plurality, a Republican gain of 1594.

Northampton—Gives Berry, F., 3000 plurality. Same county gave Berry, F., 4965 plurality, a Republican gain of 1965.

Lancaster — Gives Stuart, R., 7500 plurality. Same county gave Plummer, R., 4256 plurality, a Republican gain of 3244.

McClain, R.; Hibsham, R.; Hoffman, R., and Homsher, R., are elected to the legislature. H. Burd Cassel, R., was elected to congress by 8500 plurality.

Monroe—Gives Emery, F., a plurality of 1700. Same county gave Berry F., 1753 plurality, a Fusion gain of 347.

Mifflin—Gives Emery, F., 300 plurality. Same county gave Berry, F., a plurality of 724, a Republican gain of 424.

Indiana—Gives Stuart, R., a plurality of 2800. Same county gave Plummer, R., 1818 plurality, a Republican gain of 982.

Luzerne—Gives Emery, F., a plurality of 5000. Same county gave Berry, F., a plurality of 8196, a Republican gain of 3196.

John T. Lenahan, D., for congress, has been elected by 4000 majority over Dr. Cobleigh, the Roosevelt Square Deal candidate.

Franklin—Gives Emery, F., a plurality of 1200. Same county gave Berry, F., a plurality of 1022, a Fusion gain of 178.

Erie—Gives Stuart, R., 500 plurality. Same county gave Berry, F., 467, a Republican gain of 967.

Berks—Gives Emery, F., a plurality of 5200. Same county gave Berry, F., 12,583 plurality, a Republican gain of 7383.

W. Wayne Weber, D.; John W. Morrison, D.; H. G. McGowan, D.; I. M. Shanaman, D., and D. H. G. Kuser, D., were elected to the legislature.

Jo[illegible] plurality for [illegible]s of 5000.

Cambria — Gives Stuart, R., 2000. Some county last year gave Berry, F., a plurality of 1663, a Republican gain of 3663.

Barnhart, R.; James, R., and Sherbine, R., were elected to the legislature.

Bucks—Gives Stuart, R., 600 plurality. Same county gave Berry, F., a plurality of 1461, a Republican gain of 2061.

Flack, R., and Thomas, R., were elected to the legislature.

Wanger, R., for congress, has a plurality of 1500 in the county.

Cressman, R., is elected state senator by 700 plurality.

Lebanon—Gives Stuart, R., 1500 plurality. Same county gave Berry, F. 543 plurality, a Republican gain of 2043.

Freeman, R., and Moyer, R., were elected to the legislature.

Olmsted, R., for congress, has a plurality of 1800 in the county.

Blair—Gives Emery, F., a plurality of 200. Same county last year Berry, F., 639 plurality, a Republican gain of 439.

Union—Gives Stuart, R., a plurality of 400. Same county gave Pdummer, R., 174, a Republican gain of 276.

Schuylkill—Gives Emery, F., a plurality of 5000. Same county gave Berry, F., a plurality of 5717, a Republican gain of 717.

Charles A. Snyder, R.; Fred Frendenberger, R.; J. N. Hunter, D.; P. J. Graham, D., and John Carr, D., were elected to the legislature.

Charles N. Brum, R., was elected to congress by 2500 plurality.

Adams—Gives Emery, F., 900 plurality. Same county last year gave Berry, F., a plurality of 1198, a Republican gain of 298.

The whole Democratic county ticket was elected by a small majority.

Huntingdon—Gives Stuart, R., a plurality of of 350. Same county last year gave Berry, F., a plurality of 12, a Republican gain of 362.

Greene—Gives Emery, F., a plurality of 600. Same county gave Berry, F., 956 plurality, a Republican gain of 656.

Venango—Gives Stuart, R., 600 plurality. Same county last year gave Berry, 1148 plurality, a Republican gain of 1748.

Warren—Gives Emery, F., 200 plurality. Same county last year gave Berry, F., a plurality of 315, a Republican gain of 115.

THE RESULT IN JERSEY

Republicans Control Legislature, Although Democrats Make Gains.

Trenton, N. J., Nov. 7.—The next legislature will be Republican on joint ballot, but both houses will not be Republican. This means the election of a Republican as the successor of United States Senator John F. Dryden. The Democrats elect Leorn and Hammill to congress in the Ninth and Tenth districts. The Republicans carry the First, Second, Third, Rourth, Fifth, Seventh and Eighth districts. The Sixth district is in doubt. This gives the Republicans seven congressmen and the Democrats two, with one in doubt. The Democrats have elected Hinchcliff to the state senate from Passaic county. Two of the Passaic assemblymen are Democrats and three are Republicans.

In Essex county the assembly ticket is in some doubt, but with the chances favoring the Democrats. Newark has elected Jacob Hanssling, D., mayor. Should the Democrats elect their assembly ticket in Essex it will deprive Mr. Dryden of the support of his home county and man mean the choice of some other Republican to go to the United States senate.

Congressmen elected in New Jersey are:

First District—*Henry C. Loudenslager, R.
Second—*John J. Gardner, R.
Third—*Benjamin F. Howell, R.
Fourth—*Ira W. Wood, R.
Fifth—*Charles W. Fowler, R.
Sixth—George H. Burke, R.
Seventh—*Richard W. Parker, R.
Eighth—Henry J. Gotthob, R.
Ninth—Eugent W. Leake, D.
Tenth—James A. Hamill, D.

The state senators elected in New Jersey are:

Burlington county—Samuel K. Robbins, R.
Cape May county—Robt. E. Hand, R.
Hunterdon county—William C. Gebhardt, D.
Middlesex county—W. H. C. Jackson, R.
Passaic county—*John Hinchcliffe, D.
Sussex county—Jacob C. Price, D.
*Replaces a Republican.

Hold-over senators—Republican, 13: Democrats, 2.

Elected—Republicans, 3; Democrats, 3. Totals—Republicans, 16; Democrats, 5.

Present senate—Republicans, 17; Democrats, 4.

What Father Does.

Mothers may talk, work, struggle to make their sons models by which to shape a new heaven and a new earth. But the boy's world is in the man who is his father, and the boy believes that whatever may be right on Sundays or at prayer times the things that are really good, that really count in life, are what father does. Moreover, it is what father does which defines the means with which the boy shall work, the sphere wherein his efforts shall be shaped. In a word, what father does is the beginning as it is the end of the boy's achievements.—Harper's Bazar.

—Fresh oysters received daily at J. S. Keichline's.

The Cat and the Cannon.

Ct [illegible] subject of discussion [illegible] evening, and the boys came out strong with a string of capitals tales. Finally one of the veterans related a little anecodote, wherein his favorite cat—who was hopelessly behind a squirrel she was chasing across the yard—had been intercepted by him and seized by the tail, and slung with such momentumthat when she struck she at once overhauled and seized her prey. This brought Cud to his feet.

"That reminds me," said he, "of the scrape that brother Bill and I had with our cat on the Fourth of July. The boys had been firing a cannon just back of our house and had left it their. Bill and I thought we would have a little celebration on our own hook. So we got about a quart of powder and loaded up the old gun. Just as we got the wad down, old Tabby came purring around, when Bill—who was always a bit queer—grabbed her, and chucking her into the mizzle, rammed her home. We then rigged up a slow match, and touching fire to it, scampered for the hillside toward which the gun was pointed. We hadn't much more than got there when we saw the old twenty-four hist more than ten feet, and, as the smoke cleared a little, we saw old Tab a-coming, first sideways and then endways, with a 'Yeow, yeow' at every turn. Pretty soon she struck on top of the knoll, and Je ru-sa lem, how she did run!"

Sells Daughter, Who is a Myth.

John Patsigo was arrested Monday at Wilkesbarre. Andrew Janisbeck accused him of obtaining money by false pretenses.

Some time ago Janisbeck said he'd like to get a wife.

"I'll sell you my daughter," said Patsigo, "for $45. She's a pretty girl and can work and sing both."

Janisbeck closed the deal and paid the money.

Time passed. Janisbeck grew impatient to see the maid who was to be his spouse. Patsigo put him off from day to day.

Finally Janisbeck learned that Patsigo had no daughter. Then the arrest. Patsigo paid the $45 back and the case was settled.

Farmers' Week at State College, Dec. 27.

Farmers' week at the Pennsylvania State College will be December 27 to January 2.

At the various State agricultural colleges it is now the custom to hold a farmers' week, when men can spend time at the corn schools and farmers conventions, which consist of lectures on stock raising, practical farming and practical lessons in the growing of corn, feeding steers, hogs, dairy cattle and poultry, and butter making, even to judging and scoring.

The work here will be carried on under Professor H. E. Van Norman.

A Dollar an Ear for Corn.

The Pennsylvania Live Stock Breeders' Association announces that one of the features of its annual meeting at Harrisburg, January 22 25, 1907, is a corn show, open to all corn growers of the State whether they are members of the Association or not. Liberal prizes are offered for corn, 10 ears of which will constitute an exhibit, and these prizes are in Cash. The National Stockman and Farmer of Pittsburg has contributed $100 in cash to encourage this exhibit, and to this the Association and the Department of Agriculture will add enough to make the prizes worth competing for. There will be 45 cash prizes, besides specials. This is Pennsylvania's first great Corn Show, and it should bring out a big lot of fine grain, some of which may later be used in exhibits at Jamestown or other Expositions. Every corn grower who can find ten ears of choice corn when he goes to husk it has a whack at the money. He should write at once to E. S Bayard, Secretary, 203 Shady Ave., East End, Pittsburgh, for particulars and enroll himself as a contestant. A postal card will do it. Prize list will be forwarded on application to the Secretary.

New Age of Womanhood

The business woman of to-day refuses to be a moon, revolting around a masculine earth. She will be a twin star or nothing. I believe her industrial training will make her a better wife, for she will know the value of a dollar and be able to sympathize with her husband in his daily toil. She will apply business methods to domestic economy. Should her husband attempt to maltreat her she has courage enough to separate from him and return to self support. What she has once done she can do again. Being fearless and decided, she will be respected and well treated. The broader outlook she has acquired in the business world will make her a superior wife and a more capable mother. The era of famine imbecility and cowardice is fast passing away, and in its place we find the new age of well rounded, exalted womanhood.

His Pious Motive.

Cyrus Townsend Brady, the novelist, was for a number of years a clergyman on the Western frontier. "I was discussing Western life," he said recently, "with a friend of mine, a missionary. This missionary told me how he once asked a Dakota tavern keeper for subscription towards a Sunday School. There was no Sunday School in the neighborhood, and the missionary laid before the tavern keeper a number of strong arguments. The man listened in silence. He thought a while. Then he gave to the missionary a $10 bill, 'Goodness knows,' he said, we are wicked enough around here, and if anything can be done to raise the price of land, Im for it."

=:=OUR WATERSHED=:=

Coats are watersheds in fact as well as in name. Rain has no more effect on them than water on a duck's back, because the material of which they are made is of the best and properly waterproofed.

Probably 50 per cent. of the raincoats on the market are raincoats in name only. So far as being water-proof—you might just as well wear any other coat.

But OURS are truthfully WATERSHEDS, waterproofed by a special, scientific process controlled exclusively by the makers, The House of Kuppenheimer. In style and workmanship they are of the unvarying Kuppenheimer standard—which means the BEST.

You couldn't possibly buy a more useful, stylish garment than a Watershed. Truly an any-day coat. On clear, cool days it's a light weight overcoat. Only in wet weather do you know it to be a Watershed.

Our Watershed Coats are made in a variety of styles.

Montgomery & Company,

Allegheny St. Bellefonte, Pa.

Many Persons Have Catarrh of Kidneys But Do Not Recognize It.

DAVID L. JAYCOX.

A War Veteran Spends Hundreds of Dollars in His Attempt to Cure Kidney Trouble. He Took Pe-ru-na Upon a Friend's Advice and It Proved the Best Medicine He Ever Used.

CATARRH of the kidneys is a very much neglected disease.

It is not until the disease has a firm hold upon the kidneys that the patient begins to realize that there is some derangement of these organs.

The slight backaches, the feelings of lassitude, and other warning symptoms of kidney disease are overlooked.

They are not serious enough to detain the patient from his regular work.

Even when he discovers that the kidneys are affected, he does not recognize the difficulty as being caused by catarrh.

Catarrh is sometimes so very gradual in its approach and its earlier symptoms cause such slight discomfort that it is not noticed.

However, when it is once firmly seated in the kidneys, it becomes a difficult disease to exterminate.

Indeed, catarrh of the kidneys is more serious than catarrh affecting some of the other organs of the body.

In the kidneys, it is liable to terminate in Bright's Disease or diabetes, both of which are recognized as very serious ailments, if not fatal.

The thing to be done, when catarrh of the kidneys is discovered, is to take some internal, systemic catarrh remedy, one that reaches the very source of the catarrh and removes the cause of the difficulty.

Such a remedy has been found in Peruna. It reaches catarrh, no matter where it may be located in the body—whether in the more exposed membranes of the nose and throat, or whether in the remotest part of the kidneys.

PE-RU-NA FOR KIDNEY DISEASE.

That Peruna is at once the safest and most reliable remedy for catarrh of the kidneys is proven by the many testimonials written by those who have experienced its benefits.

The testimonial given here is only a specimen of the many testimonials on our records, pertaining to the relief afforded by Peruna in severe cases of kidney trouble.

For free medical advice, address Dr. S. B. Hartman, President of the Hartman Sanitarium, Columbus, Ohio.

Mr. David L. Jaycox, Chaplain Clarinda I. O. G. T. and Chaplain G. A. R., 865 Broadway, Oakland, Cal., writes:

"I am an old war veteran. I contracted severe bladder and kidney trouble.

"I spent hundreds of dollars and consulted a host of doctors, but neither did me any good.

"Finally some of my comrades who had been cured by Peruna advised me to try it.

"I at once bought a bottle and found it helped me so much that I kept using it for nearly four months.

"Peruna has proven the best medicine I ever used. My pains are gone and I believe myself to be cured.

"I feel well and would not be without a bottle in time of need for ten times its cost."

CORRESPONDENCE.

Milesburg.

Miss Fran es Kohlbecker has returned home from Patterson, N. J., after spending a month with relatives.

David Baldridge has been confined to his bed since the 31st of Oct. he had a stroke of the right side and at this writing is much better.

Miss Mary Young of Fowler Sundayed with her grandmother Mrs. Sarah Grubb.

William Treaster and John Dorman and family of Lamar attended the funeral of Levi Grubb.

Mr. Hollobaugh of McKeesport visited his sister, Mrs. Mary A. Kellerman.

Mrs. William Stanly and children are visiting friends in Tyrone and Houtzdale.

William Stanly will take a week to hunt for larger game than ground hogs, and will try his hand with deer and bear.

Mrs. Margaret Fulton left on Saturday last for an extended visit among her children.

Mrs. Conce and daughter of Snydertown, Mr. Poorman and wife of Williamsport attended the funeral of Levi Grubb

Levi Grubb died on the evening of Oct. 31st of consumption of the bowels, he was buried in Bellefonte on the afternoon of Nov. 3, 1906. He carried a life insurance in the Prudential Insurance Co. and his widow received a check for $84 on the 3rd inst.

Centre Hall

H. C. Robison voted early Tuesday morning and took the train for South Dakota. He expects to be absent from two to four weeks, during which time he expects to sell some real estate belonging to the Robison estate.

John Geary paid a visit to his daughter, Mrs. Austin Krape at Burnham on last Sunday. He was accompanied by his niece, Mrs. Robison and granddaughter Edna who remained with her mother.

Ex-sheriff John Spangler who has been ailing for several months is now bedfast with little hopes of his recovery. His sons are with him at present.

Nearly one hundred persons visited the Capitol building last Saturday.

George W. Dunkle and wife expect to leave for Elmira, New York, to spend the winter with their daughter Mrs. Hess. They have also an unmarried daughter living in Elmira.

By the time your paper reaches its readers, Centre Hall's society of young folks will be minus one of its fair damsels who will have linked her fortune with one of Altoona's young men.

Rev. Ditzell and wife of Lancaster are visiting Mrs. Ditzell's parents, Mr. and Mrs. Alfred Durst.

Moshannon.

John Leeder spent a few days at his home here recently.

The Modern Literary Society, met on last Friday evening and rendered their first program, which was greatly appreciated by all present. This promises to be one of the interesting features of the social circle during the coming winter season.

The election passed off very quietly here. Every voter, after hearing the argument of both sides, went to the polls and voted as he always does—just as he pleases.

Hon. John A. Woodward, of Howard, visited our town lately, on political business.

The hunters are already pouring into these parts. This is one of the best places in the state for hunting. As to the amount of game captured, that is another matter. But how nice to get beyond the bounds of the law with a full supply of the "good stuff" and have a grand, good (?) time.

Revival services will begin in the M. E. Church, on Sunday Nov. 11. All are very cordially invited to attend these meetings.

Take Care of Matches.

Fire insurance statistics will demonstrate that a large number of the fires which occur in this country result from the careless handling of matches. Housekeepers who are as a rule careful in all other things will thoughtlessly allow matches to be where young children may get hold of them, and when a child handles matches the result is inevitable. Fortunately in many cases the damage following the playing with matches by children is not serious, but in a number of instances fatal consequences have resulted.

There is only one rule which should govern parents in regard to this matter. All matches should be kept out of the reach of young children. Matches should be confined in tin boxes placed so high that they cannot be gotten at by children or mice. Many a heartache would be saved to parents if they were to be more careful in taking care of matches. Fire is a dangerous thing to allow a chance to get a start in a house, and yet thoughtless mothers will continue to resent all advice as to how they should take care of matches so that children cannot get at them.

Next Sunday's New York World.

European courts are, just now, being charmed by a young American girl not yet out of her teens. She had fairly hypnotized the effete monarchs and their courts by her great charms, and is having unprecedented honors showered upon her. She is a New York girl, and it will be a matter of pride for New Yorkers, as well as all Americans, to read about her and see her picture. Among many other most interesting features, this will be a part of next Sunday's New York World.

In Memorian.

WHEREAS, Our friend and comrade, John Solt, of Co. F., 200 Reg't P. V. I., has passed through the portal we call death, and entered into one of "the many mansions prepared for those who love Him," has taken this life's last weary march, folded last of earth's tents and heard the welcome reveille, therefore,

Resolved, That the Post has lost one of its good and faithful members, and one who will be much missed in the little band of comrades,

Resolved, That we put on record our appropriation of him as a man, honest, faithful, God-loving and God-serving in his daily life, a kind husband and a faithful father, and a good neighbor.

Resolved, That a copy of these be sent to the family, and to the county papers for publication.

Signed on behalf of Peter's Bro's. Post, 263, G. A. R., by

E. A. RUSSELL,
GEORGE P. HALL,
A. J. ST. CLARE.
Com.

Y. M. C. A. Notes.

Over fifty members of the Y. M. C. A. Boy's Department attended a pop corn social at the rooms Tuesday evening. This event marked the opening of two large upstairs rooms, that are to be devoted to boys works. This room is supplied with the best games including to shuffle boards, two balletto boards, crokinole, carroms, checkers, chess, etc. etc. Mr. Paul Wetzel will be in charge of these rooms during the hours that the boys are in attendance at the building.

New games have also been ordered for the senior game rooms, including a large che-roque table. This last game table is rather an expensive article, but as it had served eight months in another association, was purchased by the committee at half price.

Good News For P. R. R. Employes.

The wages of all employes of the Pennsylvania railroad system on lines east and west of Pittsburg are to be increased. Nearly 15,000 men will be effected. It is probable the increase will be effective December 1, but on account of the detail work to be done before a sweeping order is issued, it may be later.

The management is considering a proposition to grant an increase of 10 per cent to all employes whose salary per month is less than $500. The monthly payroll of the system average about $10,000,000 and an increase would mean the additional payment of $1,000,000. The total number of employes on the combined systems affected is about 133 565.

Wasps vs. Cider Drinking.

Ben Smith of Wallis Run, is a cider drinker; so are many others. But Ben had an odd experience. He was sucking his cider through a straw, from the amber, frost-sweetened depths of a whole barrel of the delicious stuff, lost in the stomach lusciousness of the gurgling fluid, when a wasp—an ordinary, thin waist, jerky-winged, hump-backed, jiggered-eyed wasp—alighted upon his busy lip, and before he could get his automatic pump to cease its ciderie vibrations, that wasp had drilled a post hole right down where Ben's mustach ought to be—and Ben stopped drinking cider. He has stopped ever since, for his lip has been more than twice its ordinary size. In the meantime a whole colony of wasps are engaged in sipping nectar at the bung hole of Ben Smith's cider barrel.

Mother Shot by Son Dies in the Hospital.

Mrs. A. B. Shope, the woman from Cato who was taken to the Lock Haven hospital Wednesday suffering from a gun shot wound in the right leg, died at 3.45 o'clock this morning. Her limb was riddled to pieces and she never rallied from the shock. She was aged about 50 years and is survived by her husband and a large family of children. George, her son, who did the shooting, is almost insane with grief and refuses to be comforted.

The accident happend on the 17th birthday. The young man celebrated the event by going hunting and after an hour's stay in the woods returned with a pheasant.

Hospital Notes.

Mrs. F. L. Cole, wife of Prof. Cole, of the Academy, was discharged Wednesday cured.

Arthur Hughes, son of the matron at the Academy was also able to leave the hospital.

Chauncy Wisner, a student at the Academy, was admitted to the hospital Wednesday suffering from pneumonia

Mrs. James P. Corl, who was operated on at the hospital has recovered and left the hospital.

Robert Kosk, an Austrian, had a leg broken at the Nittany Furnace and is now in the hospital.

The hospital is crowded. There are 15 patients there now and every cot is taken.

—New comb honey, New buckwheat flour, Schmidt's butter nut bread, Barrington Hall steel cut coffee, selected sweet potatoes, Red ripe cranberries.

Oct. 26, 1-mo SECHLER & Co.

Woman's Strange Pets.

Some minds are strikingly original, even in the choice of pets. Certainly this was the case with the wife of a farmer, who made a pet of a pig. The animal lost its mother early, and the lady, taking pity on the little orphan, bore it off to the kitchen, where she succeeded, by the aid of a feeding bottle, in rearing it.

The pig became a great pet, and used to follow its owner like a dog. It could hardly have been its outward attraction that won her heart! it must have been its qualities which endeared it to her. This is the more credible when we remember that Eugene Bodichon, the great French traveler, after a careful study of the porcine species, described the pig as an animal "qui a beau coup d'esprit."

Another very singular pet was that of a frog, which was tamed by a young girl in the country, and would come out from under the leaves at her approach to be fed with a strawberry.

A lady who was confined to her room had a fowl which, before her illness, was a constant companion. It used to be regularly brought to her room every morning to see her and be fed by her own hands, and allowed to take a short walk about her room.

Another member of the feminine gender actually made a pet of a turkey, and declared it should "never be eaten, but die in its own good time," which it did of old age.

A much more extraordinary instance of a strange pet, for a woman at any rate, was where an old lady so far overcame the natural repugnance of her sex as to tame a mouse, which has been caught in her store cupboard. So successful was her treatment, that at last the tiny animal would take crumbs from its mistress's fingers.

Useful Hints.

A lump of camphor placed in the china closet will prevent any silver which may be in it from tarnishing.

If a little boiling water is added to the sweet milk used in making biscuits, it will be found that less shortening is necessary and the result just as good.

New tinware should be rubbed over with lard and thoroughly heated in the oven before being used, for it will prevent its rusting and so add immensely to its durability.

When you are short of oil in your lamps, pour water in to fill. The oil will float on top of the water and may be burned as long as there is any left. Put some salt in the bottom of your lamps. The light will be much brighter.

Always choose a dull, windy day for renovating feather pillows and beds and a sunny one for all kinds of mattresses. Hang the pillows on a line where the wind can have full play; beat several times to lighten the feathers and free from dust and allow them to hang out all day.

"Quincy Adams Sawyer."

"As pure as a flower, as rich as a field of golden grain, and as true to nature as a hollyhock on a country roadside" is what a leading daily recently said of the great New England Play, "Quincy Adams Sawyer," which comes here Tuesday Dec. 18, at Garman's Opera House.

It is because of its purity, its sweetness, and its fidelity to nature that this great rural drama, standing alone and individual in its class, has won unstinted admiration from the great army of play goers quick to recognize and appreciate a piece of stage life "that holds the mirror up to nature."

"Quincy Adams Sawyer" is the sort of play that appeals to all classes. City bred folks enjoy the characters and pictures they have known in other years, the rural folk are pleased with having their own people set before them in the mimic world, and the happy mingling of comedy and pathos please both the devotee of humor as well as the lover of sentiment.

A well selected company, splendid scenery, and a careful regard of detail in stage effects, go to make up a complete production.

Children in the Schools.

The Department of Health at Harrisburg has carefully tabulated the diseases for which scholars may be enjoined from attending school. No child will be allowed to attend school if he resides in the same house with any person afflicted with spotted fever, whooping cough, measles, German measles, mumps or chickenpox. Such children should be forbidden to attend any school, public, private, parochial, Sunday or other schools, says Mr. Dixon. Pupils who are themselves afflicted with tonsilitis, scabis, pediculosis capitis, impetigo contagiosa, favvs, "pink eye," tinea circinala, or erysipelas should not be allowed to attend school while suffering with these diseases, nor should they be admitted except on a doctor's certificate. These orders are being obeyed quite well as a whole, although they are observed more faithfully in the cities than in the rural districts.

Fowler on the south side and on the east end and the north by lands of Richard Fink and the west by land of C. J. Beckwith, being 12 acres more or less being part of a track of land warranteed by A. M. Elder to Susey Walk and now Edward Beckwith, deceased.

Being eight acres, one track more or less and 12 in the second track more or less. To be sold as the real estate of Edward Beckwith, deceased.

Vinton Beckwith,
Administrator.

OLD AGE.

Old age as it comes in the orderly process of Nature is a beautiful and majestic thing. The very shadow of eclipse which threatens it, makes it the more prized. It stands for experience, knowledge, wisdom and council. That is old age as it should be. But old age as it so often is means nothing but a second childhood of mind and body. What makes the difference? Very largely the care of the stomach. In youth and the full strength of manhood it doesn't seem to matter how we treat the stomach. We abuse it, overwork it, injure it. We don't suffer from it much. But when age comes the stomach is worn out. It can't prepare and distribute the needed nourishment to the body, and the body, unnourished, falls into senile decay. Dr. Pierce's Golden Medical Discovery is a wonderful medicine for old people whose stomachs are "weak" and whose digestions are "poor." Its invigorating effects are felt by mind as well as body. It takes the sting from old age, and makes old people strong.

DUFF'S COLLEGE

A High Grade Commercial and Shorthand Training School, qualifying young men and women for the positions of trust and responsibility demanded in this great Financial and Manufacturing Center. Positions secured for graduates. Write for Circulars, Pittsburg, Pa.

BLAME IT ON LOOSE RAIL

Experts Decide on Cause of Disaster at Atlantic City.

WOMAN SAW DOOMED TRAIN DROP

Mrs. Mary Hamil An Important Witness of Thoroughfare Disaster—Is a Physical Wrecy From Frightful Spectacle.

Atlantic City, N. J., Nov. 5.—Coroner Gaskill announced that experts in his employ had decided that a loose rail caused the accident on the Pennsylvania railroad at the Thoroughfare drawbridge, in which more than 50 persons lost their lives. These men had been at work examining the bridge and cars all day. The details of their discoveries were not made public.

The divers were not at work and grapipers who did work failed to find the body of the missing boy, Joseph MacElroy.

Mary Hamil told Coroner Gaskill that she watched the train when in first came in sight after leaving Pleasantville until after it had disappeared in the water.

"We saw the train bowling across the meadows at a terrific rate of speed," she said. "It stopped some little way out and then came on again. It was runing at unusual speed when it started on the bridge." Her attention was drawn to something else for a moment after that, and then she heard a noise and looked in time to see the forward end of the first car leap a foot or more in the air, leave the rails and run along the ties for some distance, halt and then topple over. It seemed to her that it was an age before the car struck the waters and she heard the maddening screams of the imprisoned passengers.

"Never, never in all the days that God permits me to live will those awful cries stop ringing in my ears," said Mrs. Hamil. "We could plainly see Motorman Scott in the little box in the front of the car, as the trucks bounded into the air. He seemed to be working over some of the machinery there, and making an effort to bring his train to a standstill. He had plenty of time to open the door of his little place and make his escape if he wanted to, but he apparently made up his mind to stick to his post in his endeavor to save the lives in his care."

Mrs. Hamil is a physical wreck as a result of the shock she received by the frightful spectacle she witnessed, and the coroner doubts if he will be able to have her at the inquest, for she is under a physician's care.

THEIR BEST YEAR

Volunteers of America Aided Thousands of Needy Families.

Chicago, Nov. 5.—"The past year has been one of the happiest in the history of our organization," declared General Ballington Booth, head of the Volunteers of America. "During the year," he continued, "we have cared for 3935 women in our homes of mercy. Volunteer officers and workers have visited and aided 27,757 families; 280,812 persons were lodged in homes for working men and women, not including those succored during strikes; 499,754 persons were fed at various institutions, and the Volunteer Prison League has cared for 50,000 persons, 70 per cent. of whom are now living upright, law-abiding lives."

Knows Nothing of Japanese Spy.

Manila, Nov. 5.—The story that a Japanese army officer had been placed under arrest here for sketching certain of the fortifications of Manila harbor was denied by Major General Leonard Wood, commander of the division of the Philippines. No such arrest has been made, and no Japanese have taken sketches of the fortifications. It is well known that since the American occupation Japanese have been engaged in making maps of the Philippines. There is no existing law to prohibit them, although such laws were in force under the Spanish regime.

"Black Hand" Outrage.

New York, Nov. 5.—Unsuccessful in their alleged attempt to blackmail Francisco Messina, a prosperous tailor of Brooklyn, members of the so-called "Black Hand" society, so the police say, hurled a dynamite bomb against the front door of the tenement house in which he lives and conducts his business and caused damage of $3000 to the building and surrounding property. Scores of persons felt the shock of the explosion, but no one was injured.

School Building Collapsed.

Pittsburg, Pa., Nov. 5.—The Minersville district public school building, one of the largest in this city, partially collapsed. The structure was an old one and was condemned last week by the building inspector. Plans were being arranged by the directors for holding school in another building, but nothing definite had been decided, and school would have been held in this building today.

Four Crushed to Death In Mine Cage.

Corning, O., Nov. 5.—Four men were killed and two seriously injured in an accident at mine No. 1 at San Toy, the men being crushed in a mine cage and their bodies hurled to the bottom of the shaft, 450 feet below. The men

CASTORIA.
Bears the Signature of Chas. H. Fletcher.
The Kind You Have Always Bought

when the door, which had been left open, caught against the sides of the shaft. The men were crushed under the door and swept off the cage, their bodies falling to the bottom of the shaft, 150 feet below.

MACHINISTS' STRIKE SETTLED

Southern Railway Will Arbitrate Demands of Men.

Washington, Nov. 3.—The strike of machinists on the Southern Railway, which was inaugurated recently for an increase in wages, has been settled.

An amicable adjustment has been reached with the committee of machinists, under which the strike will be declared off and the men now on strike will return to their old positions on Monday morning, November 5, without prejudice on account of strike. The men who remained with the company are to continue at work. Those who have been employed since the strike will be retired from the shops before Monday morning, but without prejudice as to their continued employment by the company in other places, or as to their future employment in the srops if needed.

The wages offered by the company to the machinists prior to the strike are to apply from November 5, and the company's proposition to arbitrate the difference between that scale and the demand of uniform apprentices has been accepted, and the arbitration will be arranged for under the plan and bases suggested by the company as promptly as practicable.

CARSON WANTS TO KNOW

Asks Treasurer For Records of Payments For Pennsylvania Capitol.

Harrisburg, Pa., Nov. 3.—Attorney General Carson addressed a letter to State Treasurer Berry, asking that he be supplied with records of the treasury department, particularly certain drafts which have been paid, the dates of payment and the names of the parties to whom payments were made, to assist him in investigating the treasurer's allegations of overcharges and duplications of items in furnishing and equipping the new state capitol.

The attorney general adds: "You can still further substantially aid me by giving me the names and addresses of the witnesses and experts with whom you have been presumably in conference upon the character of the work, so that I may question them as to their knowledge without loss of time."

WORK OR GO TO JAIL

Vagrancy Laws Being Enforced In Virginia Owing to Scarcity of Labor.

Norfolk, Va., Nov. 3—The movement recently started by the Norfolk county truck growers for the enforcement of the Virginia vagrancy laws in this section with a view to relieving the great scarcity of labor in the Eastern Virginia trucking belt is resulting in many arrests and confinement in the Norfolk and Portsmouth jails of idlers caught loitering about country roads, stores and saloons in the city and the suburbs.

The Norfolk county jail is being rapidly filled with this character of men, the great majority being negroes, who, it is alleged, can find employment in the trucking fields and on county farms, but will not seek it.

ROBBED AND MURDERED

Body of James A. McMillen Found In Lonely Section of Pittsburg.

Pittsburg, Pa., Nov. 2.—The body of James A. McMillen, aged 65 years, was found in a field quite close to the corner of Burchfield and Murray avenues, in the East End district, and but a short distance from his home at 39 Burchfield avenue.

That he had been robbed and murdered was evident, as his head was crushed and his pockets rifled of everything they had contained. His gold watch, as well as several diamonds he wore, were also missing. It is the opinion of the police that he was held up by highwaymen, and when he resisted, they killed him.

Boston's District Attorney Sued.

Boston, Nov. 3.—District Attorney John B. Moran, Democrat, Prohibition and Independence League candidate for governor, and James M. Perkins, who was secretary of the Massachusetts board of commissioners to the Lewis and Clark Exposition at Portland, Ore., are named as defendants in a suit alleging slander which was filed in the superior court by Wilson F. Fairbank, chairman of the board of exposition commissioners. Mr. Fairbanks seeks to recover $50,000 damages from each. The action is based upon the charges made by Messrs. Moran and Perkins in connection with the expenditure of the money appropriated by the state for the Oregon exposition.

Japan to Build Big Battleship.

London, Nov. 3.—The Daily Telegraph says it is reported that Japan has decided to begin the construction of a battleship exceeding the displacement of the Dreadnaught by 3000 tons.

NUGGETS OF NEWS

While playing in a cave at Toledo, O., 12-year-old Harry Hubbard was buried alive by a cave-in and was dead when taken out.

Jennie Donato, 13 years old, carrying her baby brother in her arms, ran in front of a trolley car in Philadelphia and both were instantly killed.

Charles B. Williams, a bookkeeper of the Citizens' Bank at Salem, Ind., was found dead in the vault, with a load of shot from a gun in his body.

Two workmen on the Wanamaker building, Philadelphia, were killed and five injured when a block of granite weighing over 500 pounds fell from the eighth floor.

THE STEEL SQUARE.

Story of the Invention of the Tool Used by Carpenters.

The large steel squares used by carpenters are such common tools that perhaps few know when and where they were first made and how they came to be used or even give the matter a thought. The making of them is a great industry now, but when the last century came in there was not one in use.

The inventor was a poor Vermont blacksmith, Silas Howes, who lived in South Shaftsbury.

One dull, rainy day a peddler of tinware called at his shop to have the blacksmith fasten a shoe on his horse. Such peddlers traveled up and down the country, calling at every farmhouse, buying everything in the way of barter. This one had a number of worn-out steel saws that he had picked up in various places. Howes bargained for them, shoeing the peddler's horse and receiving the saws in payment, and each thought he had an excellent trade.

His idea was to polish and weld two saws together at right angles and thus make a rule or measure superior to anything then in use. After a few attempts he succeeded in making a square, marked it off into inches and fractions of inches and found that it answered every purpose that he intended it for.

In the course of a few weeks he made quite a number during his spare hours. These he sent out by the peddlers, who found every carpenter eager to buy one. Soon he found orders coming in faster than he could supply the demand. One of his steel "squares" would sell for $5 or $6, which was five times as much as it cost him.

He applied for and obtained a patent on his invention so that no one else could deprive him of the profit it gave him. It was just after the war of 1812, and money was scarce and difficult to get, but he worked early and late, and as he earned money he bought iron and hired men to help him. In a few years he was able to erect a large factory and put in machinery for the making of squares, which by this time had found their way all over the country and had made their inventor famous.

Such was the small beginning of a large and important industry. People came miles to see the wonderful forges, the showers of sparks flying from beneath the heavy hammers, and listen to the din of the thousand workmen.

Silas Howes lived to be a millionaire, and he did a great deal of good with his money.—Congregationalist.

Wants to See Hearst Elected.

Omaha, Nov. 3.—William J. Bryan, when shown the extract from his letter indorsing the candidacy of W. R. Hearst for the governorship of New York, made public in New York by Bird S. Coler, said:

"That letter is authentic. I have been writing letters and giving out interviews all through the campaign to the same effect. I have indorsed Mr. Hearst, and I want to see him elected.

"I saw a statement given out by the Bryan League of New York, in which it was announced that while the league was doing all it could for the rest of the ticket it was opposing the election of Mr. Hearst. I immediately wired Willis J. Abbott, protesting against the use of my name by any organization in opposition to Mr. Hearst."

PENNSY TO INCREASE WAGES

Nearly 150,000 Will Be Affected, Some Receiving 10 Per Cent. Raise.

Philadelphia, Nov. 3.—The wages of all employes of the Pennsylvania railroad system on lines east and west of Pittsburg are to be increased. Nearly 150,000 men will be affected. It is probable the increase will be effective December 1, but on account of the detail work to be done before a sweeping order is issued, it may be later.

The management is considering a proposition to grant an increase of 10 per cent. to all employes whose salary per month is less than $500. The monthly pay roll of the system averages about $10,000,000 and an increase would mean the additional payment of $1,000,000. The total number of employes on the combined systems affected is about 133,565.

TWO MORE BODIES FOUND

Divers Bring Up Remains of Two Atlantic City Wreck Victims.

Atlantic City, N. J., Nov. 3.—The bodies of two additional victims of the Thoroughfare accident of Sunday were recovered by divers who have been searching the bottom of the stream. One of the bodies recovered is supposed to be that of Armand Alexis Tadesco, of New York, and the other is that of Mrs. Salina Miller, of Philadelphia. The total number of known dead is now placed at 56. The bodies recovered were badly decomposed.

Charles Risley, of Woodbury, N. J., an Italian, who was reported missing, has been located at Camden, Delaware, where he went on Sunday instead of coming here, as he planned.

Pennsylvania German Society Meet.

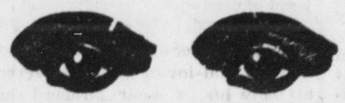
Allentown, Pa., Nov. 3.—At the 16th annual meeting of the Pennsylvania German Society of the state at Muhlenberg College, B. M. Head, of Harrisburg, was elected president; Dr. G. T. Ettinger, Allentown, and Professor John Eyerman, Easton, vice presidents; H. M. M. Richards, Lebanon, secretary; Dr. Julius F. Sachs, treasurer; Mahlon N. Keyser, Philadelphia, and Dr. W. K. T. Sahm, Pittsburg, members of the executive committee. The society has 502 members, 47 of whom joined the past year, in which time also 11 died. The receipts were $3829; expenditures, $1997; balance, $1831.

Prof. J. Angel.

Eyesight Specialist.

THURSDAY Mornng unt FRIDAY Noon,

NOVEMBER, 8th. and 9th.



Prof. Angel as an eyesight Specialist gives remarkabll results for weak eyes, Headache, Blurred visions, cross-eyes or Defective eyesight. Should any person doubt of the Statement, Prof. Angel is well able to give plenty of individual Testimonials of some of the best people of Bellefonte and Vicinity. Prof. Angel is trustworthy and reliable. If you wish to save your eyesight and money too, don't fail to call on Prof. Angel. All parents are advised to have their childrens eyes examined especially those that go to school. You will thereby make a good scholar and avoid suffering. At the Brockerhoff House Thursday morning until Friday noon, November, 8th. and 9th.

HOT AND COLD WATER.

How to Use These Remedies to the Best Advantage.

Hot or cold water is excellent as an application for inflammation, congestions or abrasions, but how many people know which to apply in particular cases while awaiting the arrival of medical relief? Not many, and the mistakes made in some instances are ludicrous.

Take the barber, for example, who has cut his patron's face. He generally washes the face with a towel soaked in warm water, often pressing it right into the injury, and then wonders why the blood flows from the cut so freely. In ninety-nine cases out of a hundred if he had used cold water, and the colder the better, the blood would have ceased to flow from the injury altogether, as the cold would have a tendency to contract the openings in the torn blood vessels. In all cases of such cuts or abrasions very cold water will at least reduce the amount of bleeding if it doesn't stop it altogether, and yet, singularly enough, boiling water will have the same effect.

Water below the boiling point increases the flow, but above that degree decreases it. In surface inflammations or congestions cold water ought to be used, while if the condition is situated below the surface hot water is necessary as an application because it draws the blood toward the surface and thus stimulates the circulation through the part where it is most needed.

In cases of abscesses or pimples with pus forming in them, but which have not yet come to a head, the secretion of pus can be rapidly increased and the duration of the annoyance thereby decreased by applying hot water to them at frequent intervals.

Where the eye is inflamed or smarts after a period of eye strain, such as night work often induces, hot applications are the things for relief, but the water used should be gradually allowed to cool off toward the end. Tired eyes will invariably be rejuvenated by adopting this method of treatment, and many headaches resulting from such a condition may thereby be prevented or cured.—St. Louis Globe-Democrat.

Delaware Teacher a Suicide.

Laurel, Del., Oct. Frank Hitchens one of the most promising of the young school teachers of the state, committed suicide here. Hitchens shot himself in the forehead at his school 10 miles from Laurel. He had complained of malaria and illness had made him despondent.

Fire at Carnegie Institute, Pittsburg.

Pittsburg, Nov. 5.—Fire threatened the destruction of the Carnegie Institute, valued at $6,000,000, and the most beautiful structure of its kind in America. The fire originated in the power room in the basement from defective electric wires, and was extinguished after damaging the building to the extent of $10,000. There were many people in the music hall of the institution attending an organ recital when the fire was discovered, but all reached the street in safety.

Prepared by E. C. DeWitt & Co., Chicago.

EVERYBODY IN BELLEFONTE KNOWS C. M. PARRISH.

Have Confidence When He Tells You Pepsikola Tablets Do Cure Indigestion.

Possibly you may think our only reason for praising these tablets is because of the small profit we make on each 25 cent box, but how little satisfaction there would be in recommending a remedy that would disappoint you and thereby lose your trade.

This thing of selling a worthless article is mighty poor business policy Square dealing always pays best and when we tell you what Pepsikola tablets will do, our confidence is based on our own personal experience in selling them here in Bellefonte year after year.

There isn't a remedy in this store that we recommend more highly and unless Pepsikola tablets really do what we claim for them how utterly useless our efforts would be.

For coated tongue, sour stomach, wind belching, fullness after eating, heart burn, sleeplessness, weakened energy, and other symptoms of indigestion we recommend them with every confidence and always refund the 25 cents should you fail to receive the benefits expected.

ANNIVERSARY OF THE I. C. S.

Scranton Filled with Distinguished Visitors to the Fifteenth Anniversary of the Great Correspondence Schools.

Scranton, Pa., October 17th.—The Fifteenth Anniversary of the International Corrrspondence Schools which closed Wednesday evening with a monster banquet at the Thirteenth Regiment Armory, has proved to be a unique educational jubilee, and has been an event the like of which has never been seen before in this city. The Anniversary, which was the first to be celebrated by the Schools, marked the closing of the fifteenth year since Thomas J. Foster, the founder of the institution, enrolled the first I. C. S. student for a Course of Correspondence instruction in Coal Mining; and it is interesting to note that this first student was present at the Anniversary, and is now Superintendent of a Mining Company.

Though thousands of Visitors to Scranton have been through the large and interesting buildings of this remarkable institution, never before has such an assemblage of men of national prominence come together in this city either to look into the workings and results accomplished by the most successful system of correspondence instruction in the world, or for any other reason. Among these noted men may be mentioned Governor Pennypacker, Nathan C. Schaefer, State Superintendent of Public Instruction; Colonel H. L. Scott, U. S. A., Superintendent West Point Military Academy; William Kent, A. M., M. E., Dean Engineering Department Syracuse University; Elbert Hubbard. John Mitchell, E. A. Engler, Ph. D., L. L. D., President Worcester Polytechnic Institute; Henry S. Drinker, E. M., President Lehigh University; Lieutenant Commander H. S. Wilson, U. S. N., Honorable Charles Emory Smith, Editor Philadelphia Press; G. E. Fellows, Ph. D., L. L. D., President University of Maine; Professor Henry D. Thompson. Professor of Mathematics, Princeton University; Charles S. Howe, Ph. D., President Case School of Applied Science; Professor Henry H. Norris, Professor Electrical Engineering Cornell University; and many others. Besides these many prominent men from all parts of the country which included educators from leading colland universities, government officials, etc., were also I. C. S. students from almost every section, and a large representation of the officers and fieldmen employed by the Company in the different cities. Among the individual students were many who through the I. C. S. system of education have been unabled to rise from poor paying positions to places as superintendents, managers, and heads of companies of their own.

The immense buildings of the Schools were filled with exhibits from all parts of the world, and though the occasion was one of celebration, the different Departments of the Schools were busy at their regular work in order that the distinguished body of visitors might have an opportunity to inspect the methods of preparing the textbooks and giving instruction through the mail to hundreds of thousands of students in all corners of the world.

In the morning a large audience filled the Lyceum Theatre and greatly enjoyed the special exercises held there by the Schools. Much interest was exhibited in the address of Thomas J. Foster, the founder and still President and active head of the I. C. S., whose address concerned the development and advancement of the International Correspondence Schools, President Foster's address was followed by others explaining the unique methods employed by the I. C. S. in carrying out their system of instruction, and describing the Schools and the system. The audience was also delighted with speeches from Governor Pennypacker and Chares Emory Smith, Editor of the Philadelphia Press.

In the evening a banquet was given by the Board of Directors of the International Correspondence Schools at the Thirteenth Regiment Armory, at which 900 guests were seated. Speeches were made by Homer Greene, the well known Pennsylvania Lawyer—Author, Nathan C. Shaefer, Professor William Kent, Elbert Hubbard, John Mitchell, and the Honorable H. M. Edwards, President Judge of Lackawanna County, Pa.

The history of the I. C. S. is most interesting. Started by Thomas J. Foster as a mere experiment in 1891 with a single course of instruction designed to give coal miners the technical knowledge necessary to pass examinations for mine foreman, the idea has grown and succeeded so remarkably well that the Schools now offer 208 separate Courses of Instruction covering practically all of the leading trades and professions. It is not an interprise that has been at all forced upon the public, but has been created and has grown and broadened in response to an immense demand from the masses for a system of education that would do for them what a technical education does for the wealthier class.

For years prominent educators were inclined to be skeptical of a system of education so radically different from older established methods, but careful and painstaking inspection of the results accomplished by the I. C. S. during the last fifteen years; the recent publication by the Schools of a book giving the names and addresses of over 85,000 students who have gained material betterment from their course of Study; the issuance of another book giving the actual sketches of advancement secured by several thousand students as the direct result of their studies; and the hearty endorsement of the I. C. S. by over 10,000 employers throughout the country, has compelled national faith and won the endorsement of leading authorities everywhere for this remarkable system of industrial education.

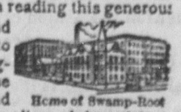
DO YOU GET UP WITH A LAME BACK?

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, kidney, bladder, uric acid troubles and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's **Swamp-Root** is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work, in private practice, among the helpless too poor to purchase relief and has proved so successful in every case that a special arrangement has been made by which all readers of this paper who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty cent and dollar sizes are sold by all good druggists.



Home of Swamp-Root

Don't make any mistake, but remember the name Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghampton, N. Y. on every bottle.

TUESDAY'S ELECTIONS

Will Be Held in Forty-two States and Three Territories.

TO DECIDE CONTROL OF HOUSE

Both Sides Agree Democrats Will Make Gains In Congressmen—Many States to Choose Legislatures to Name United States Senators.

Tuesday's elections will be held in 42 states and three territories. Oregon, Maine and Vermont have already elected state officers and members of the 60th congress. In 23 of the states a governor and other state officers (in 20 of them also a legislature); in 10, minor state officers or justices of the supreme court; in two, congressmen and a legislature, and in seven congressmen only are to be elected. Oklahoma is to vote on a state constitution, and Arizona and New Mexico on joint statehood.

The terms of 30 United States senators—15 Democrats and 15 Republicans—expire March 3, 1907. Virginia, Louisiana, Mississippi, Kentucky and Arkansas have already selected Democrats, and Georgia has a legislature which will elect another, while Maine and Oregon have legislatures which insure the return of Republicans. Of the 22 states in which is to be chosen November 6 a legislature that will elect United States senators, 14 are now represented in the senate by Republicans and 8 by Democrats.

A national house of representatives is to be elected, the 60th congress, with 386 members. The present house is composed of 250 Republicans and 136 Democrats. Maine has already elected four Republicans, Oregon two and Vermont two.

The managers of both the Republican and Democratic campaigns agree that the Democrats are to make gains over their present representation in Congress. Both are also agreed as to the states where these gains are to come from, and both are directing the energies of the closing hours of the campaign to these battlefields.

In New York, where the state campaign has eclipsed all else, the vote for congressmen will be disturbed by local conditions to such an extent that the returns Tuesday night will furnish, perhaps, the most interesting reading for these at the headquarters of both political committees. A landslide for either candidate for governor would carry with it unexpected results as to the congressional ticket. It is conceded, on a normal basis, that the Democrats will make gains in this state.

Pennsylvania furnishes another interesting situation with the governorship fight between Lewis Emery, Democrat and Lincoln party candidate, and former Mayor Stuart, of Philadelphia, Republican nominee. Many Republican and Democratic heavyweights have been sent into the western part of the state, and the registration has been heavy.

Representative Dalzell, of Pittsburg, is having opposition, which some time ago assumed serious proportions in Dr. R. J. Black, former mayor of McKeesport. R. A. Aiken, former district attorney of Lawrence county, is making a vigorous campaign against Representative Acheson, whose majority in 1904 was 13,000.

The districts where Sampel Gompers, president of the American Federation of Labor, has made a fight, are also points of interest. The labor leader paid his compliments to Representative Mudd, of Maryland, and Democrats predict the defeat of Mr. Mudd.

In Massachusetts the governorship fight eclipses all else. Curtis Guild, Jr., Republican, is opposed by John B. Moran, nominated by the Democrats, Prohibitionists and Independence League.

Summed up, the states in which both sides seem agreed that Democratic gains may be made are New York, New Jersey, Pennsylvania, Ohio, Indiana, Illinois, Missouri, Iowa and Maryland.

The number of tickets in the different states is: 1, South Carolina; 2, Alabama; Florida, North Carolina, Tennessee, Washington; 3, Delaware, Montana, Nevada, North Dakota, Rhode Island, Utah; 4, Connecticut, Colorado, Idaho, Michigan, Minnesota, Missouri, Nebraska, New Hampshire, South Dakota, Wisconsin, Wyoming; 5, Illinois, Iowa, Kansas, New York, Ohio; 6, Indiana, Massachusetts, Texas; 7, California; 12, Pennsylvania.

Thirty-nine Horses Cremated.

Pittsburg, Pa., Nov. 5. — Fire destroyed the livery stables of William Hamilton & Sons, 5307 Fifth avenue, East End, cremating 39 horses and burning 36 carriages. The loss is about $60,000. The wife of one of the drivers, with her two children, were rescued by firemen when nearly dead from suffocation. The origin of the fire is not known.

Gored to Death By Enraged Bull.

Gallipolis, O., Nov. 5. — Charles D. Bailey, 76 years old, who lived two miles above Gallipolis, was attacked by an enraged bull while crossing a field and gored to death. Mr. Bailey was one of the most prominent farmers in this section. He was a former member of the state board of agriculture, and served for many years as commissioner of Gallia county.

Smokes Many Cigarettes and Dies.

Scranton, Pa., Nov. 5.—Antony Romania, whose average was 40 cigarettes a day, died in the Carbondale hospital, and the physicians declare it was the result of his smoking.

EXPLOSION DEMOLISHES TRAIN

Car of Dynamite Blows Up Fifteen Freight Cars.

Ridgway, Pa., Nov. 5.—A train of 15 freight cars north-bound on the Buffalo, Rochester & Pittsburg railway was demolished by an explosion. A car loaded with dynamite was standing at Thayers siding, near here, and as the freight train passed it the dynamite blew up from a cause unknown. So far as ascertained there was no loss of life. The freight cars were destroyed. Seven of them contained merchandise. The explosion was heard within a radius of 20 miles.

DIES OF FRIGHT IN HOSPITAL

Lad With Two Crushed Fingers Collapses.

Trenton, Nov. 5.—Surgeons at McKinley hospital are convinced that John August, 17 years old, died of fright. The lad had two fingers crushed in a mill where he was employed and was taken to the hospital for treatment. The surgeons found that they would have to amputate the fingers. A nurse was about to administer an anaesthetic when the youth collapsed. The surgeons used every possible means of restoring him, but without avail.

Killed Responding to Cry For Help.

Cleveland, Nov. 5. — Theodore G. Schafer, 31 years old, was shot and killed in the Empire hotel by W. F. Willis, a Pennsylvania railroad switchman. Schafer, a boarder at the hotel, heard Willis' wife screaming for help, and while endeavoring to gain admittance to the Willis apartments the door was flung open by Willis, who fired three shots at Schafer, killing him. Willis escaped from the hotel, but was later captured by a policeman, after George Gilbert, a brother-in-law of the murdered man, had run Willis down and was about to shoot him with a rifle.

REBUKES POLITICAL LIARS

Boston Clergyman Surprises Congregation By Discussing Civic Affairs.

Boston, Mass., Nov. 5. — Rev. Dr. George A. Gordon, pastor of the new Old South church and one of the most prominent Congregational clergymen in New England, prefaced the communion service at his church with a brief address on the political situation in Massachusetts. Dr. Gordon's parishioners expressed some surprise that the clergyman should discuss civic and political affairs from the pulpit, as he has generally refrained from such action. Dr. Gordon, however, explained his remarks by saying that the gravity of the situation was such that he could not refrain from commenting on it in the pulpit.

He said that seldom in the history of the country has there been a time of greater peril, tumult, passion and falsehood than at present. He would not attempt to tell his people how to vote, he said, but he wished to tell them how to prepare themselves to vote. If they would keep in memory the lives and services to their country of Washington and Lincoln, and would dwell upon the sacrifices to preserve the Union made by the flower of the south and of the north who died in the Civil War, and if his parishioners would commune with the spirit of Washington, Lincoln and other great national heroes, there was no doubt, Dr. Gordon said, that they would vote on Tuesday "to rebuke the unmitigated liars who are disturbing the peace of society."

Nineteen Negroes Released.

Atlanta, Ga., Nov. 3.—Nineteen negroes indicted in connection with the murder of Policeman Heard during the September riots, were ordered released by Judge Roan in the superior court. The evidence against these defendants was considered insufficient to warrant holding them for trial. Twenty-three of the indicted negroes under arrest will be held for trial for murder, and against these the evidence is practically the same as that against Alexander Walker, who was given a life sentence on Wednesday.

No Football at Columbia College.

New York, Nov. 3.—Letters which have recently passed between the student board of representatives of Columbia University and President Nicholas Murray Butler, of the university, relating to football, were made public. The student board wrote that it had been decided at a meeting of that body to petition the president to permit a series of inter-class games of football under the new rules, to be played this fall, because the sport had been fundamentally altered since last year. President Butler replied that the request was beyond his power to grant, because the intercollegiate game of football was abolished in Columbia in consequence of the action of the committee in student organization and of the university council.

Tramp Shoots Two Resisting Arrest.

New Lisbon, Wis., Nov. 3.—Edward Taylor was killed and City Marshal George Wonderly was fatally shot by a tramp they were attempting to arrest. The tramp was suspected of burglary. He was slightly wounded by the officers. The prisoner was taken to the county jail at Mauston and a strong guard placed around it. A number of railroad employes made an attempt to lynch the man before he was taken out of the village. Prompt action by the authorities in rushing the prisoner to Mauston saved him for the time being, but attempts are being made to organize a mob to proceed to Mauston.

SAY HE IS $20,000 SHORT

Treasurer of Several Brick Companies Accused and Arrested.

HE GOES TO JAIL WITHOUT BAIL

Habeas Corpus Hearing Threatens to Involve the Directors In Queer Practices and That Companies Are Running Mostly On Wind.

Reading, Pa., Nov. 5. — The announcement that F. Herbert Le Sueur, prominent clubman and treasurer of the Kaaterskill Brick Paving company, and assistant treasurer of the Mount Gretna Brick company, the Middletown Brick company and the Reading Shale Brick company, all subsidiaries of the United States Brick company, of which he also assistant treasurer, with offices in the Colonial Trust building in this city, had been arrested on the charge of embezzlement, created a great stir in local financial circles.

The amount of money involved is said to be between $20,000 and $25,000, and the complainant in the case is Detective Martz, who made the arrest, it is understood, at the instance of a high official of the company, to whose notice alleged discrepancies in the accounts of the accused were brought some time ago.

When arrested Le Sueur took the matter calmly, and appeared unconcerned when, after waiting three hours in a vain attempt to secure $10,000 bail, he was taken to prison.

After a hearing lasting nearly three hours Le Sueur was held for court by Magistrate Bruce, and, being unable to secure bail, was recommitted to prison. He was held on three charges, two of embezzlement and one of falsifying accounts.

During the hearing witnesses for the prosecution testified that they had found a number of instances in which the accused man had changed figures in the books; that he had apparently taken money from all the companies, and, by a system of borrowing from one to balance the accounts of the other, had endeavored to cover up his peculations. It was further alleged that in addition to juggling with the figures he had speculated and lost in the stock market.

During the entire hearing Le Sueur maintained a calm demeanor and, having no opportunity to tell his side of the story to the magistrate, declined to make a statement. His attorneys, by their cross-examinations, however, made it clear what the line of defense will be.

They maintain that the companies have a made a practice of "kiting" checks, and that Le Sueur, being treasurer, was made the catspaw. The further contention will be made that most of the big companies have been run largely on wind for some time, and that the working capital is too small to meet operating expenses; hence it has been the practice for some time to borrow from the various subsidiary companies to make up the pay roll.

They further declare that much is done without the knowledge of the directors, and in order to bring out this feature of the case they will apply for a habeas corpus hearing.

Le Sueur is about 32 years of age. He came to Reading 18 months ago from New York, where he was employed as an expert accountant by a big auditing house. His recommendations were of the best, and his affable manner won him many friends during his brief residence here. His wife was prostrated by the news of his arrest.

Locomotive Plunges Into Saloon.

Rome, N. Y., Nov. 5.—A locomotive drawing an east-bound freight train on the Central railroad jumped the track here and plunged into a saloon at the corner of James street and the railroad. Engineer Albert Brown, of Little Falls, was caught in the wreckage and scalded to death. Brakeman Robert B. Vandervoort, of Albany, was crushed to death under the tender. The wrecked engine was hauling a train of 50 loaded cars. At the station in this city the engineer received the signal to cross over to another track. At a frog the locomotive jumped the track and ran along the grounds a distance of 125 feet, when it swerved and then plowed straight into the saloon, a two-story frame building.

Woman Mysteriously Murdered.

Bristol, Tenn., Nov. 5.—While leaving the home of Mr. and Mrs. W. H. Gildersleeve, at Abingdon, Va., a town 14 miles east of here, Mrs. William Garrett, a widow 85 years of age, was murdered by an unknown party. The murder occurred in a dark alley adjoining the Gildersleeve home, and was done with a shotgun, the charge almost severing the woman's head from the body. Mrs. Garrett was employed in the Gildersleeve family.

Congressman John Ketcham Dead.

New York, Nov. 5.—Representative John Henry Ketcham, of Dover Plains, died of apoplexy at a hospital in this city. He was 74 years of age. He served in the house of representatives from the 18th New York district during the terms of 1865-73, 1877-93 and 1897-1903, and following reapportionment has since represented the 21st district, in which he was a candidate for re-election on the Republican ticket.

CASTORIA.

Bears the Signature of Chas. H. Fletcher. The Kind You Have Always Bought

HID EN DANGER.

Nature Gives Timely Warnings That No Bellefonte Citizen Can Afford to Ignore.

Danger signal No. 1 comes from the kidney secretions. They will warn you when the kidneys are sick. Well kidneys excrete a clear, amber fluid. Sick kidneys send out a thin, pale and foamy or a thick, red, ill-smelling urine, full of ediment and irregular of passage.

Danger Signal No. 2 comes from the back. Back pains, dull and heavy, or sharp and acute, tell you of sick kidneys and warn you of the coming of dropsy, diabetes and Bright's disease. Doan's Kidney Pills cures sick kidneys and cure them permanently. Here's Bellefonte proof.

Mrs. Nancy Davis, of 246 East Logan Street, says: "I suffered a bad fall some years ago when living in Rochester. I thought at first that I had broken my back. I was unable to get up without assistance and from that time I suffered for years with a weak back and excruciating pains through the loins and through the small of my back. Sometimes I was completely prostrated and helpless. Doctors and medicines failed to help me and the pain continued until I got Doan's Kidney Pills. I took only a few doses before I began to feel better and when I had continued using them for a while I was thoroughly cured. My back regained its strength and the pain left me. I have had no return of the trouble since."

For sale by all dealers. Price 50 cents. Foster—Milburn Co., Buffalo, N. Y. sole agents for the United States.

Remember the name—Doan's—and take no others.

FOLEY'S KIDNEY CURE

Makes Kidneys and Bladder Right

For sale by C M Parrish.

Home Market

is the title of the first document of the Congressional campaign of 1906, issued by the American Protective Tariff League. The pamphlet is a reproduction of the great speech of Congressman John F. Lacey of Iowa, recently delivered in Congress. Send postal card request for free copy. Ask for document No. 84. Address W. F. Wakeman, Secretary, 339 Broadway New York, N. Y.

Preventics, as the name implies, prevent all Colds and Grippe when "taken at the sneeze stage." Preventics are toothsome candy tablets. Preventics dissipate all colds quickly, and taken early, when you first feel that a cold is coming, they check and prevent them. Preventics are thoroughly safe for children, and as effectual for adults. Sold and recommened in 5 cent and 25 cent box by Greens Pharmacy.

BRIEF MENTION

Short Items of Local Interest Gathered By The Way Side

—The things a man doesn't have to do are always the easiest.

—It's a sure sign of rain when somebody steals your umbrella.

—A man, too, is known by the company he keeps away from.

—The actor generally has two salaries; the one he talks about and the one he gets.

—Even the woman who is not afraid to die doesn't fancy the idea of joining the silent majority.

—The roller skating in the Armory is getting to be quite a fad Large crowds attend every night.

—Ye editor's family is indebted to Bruce Garbrick for a nice big fat rabbit which we enjoyed for our dinner.

—Mrs. D. H. Hastings entertained the Daughters of the American Revolution at her home Thursday evening.

—The Semi-professional foot ball team of Canton, Ohio, passed through Bellefonte on their way to State College, where they will train for a couple of days.

—On Sunday the bans of the approaching marriage of Daniel O'Leary and Miss Alice Stover. both of this place, were read in St. John's Catholic church. The wedding is set for November 14th.

—A Clearfield girl has a new scheme. She wears an apron to the door when her "steady" comes of an evening, and blushingly asks him to excuse the fact, because she has been helping mamma.

—Two men were seen stealing a demijohn of cider from the back porch of a Curtin street residence last evening. If the "empty" is returned in good order within five days no fuss will be made, if not they will be arrested and exposed to public gaze.

—Prof. J. Angel, the well known eye specialist of Williamsport, Pa., will make his usual monthly visit to Bellefonte Thursday and Friday November 8th and 9th. He will be at the Brockerhoff house where he will be pleased to receive you.

—The editor who can please every one is not suited to this earth, but is entitled to wings. Human nature is so constituted that some of our readers would like us to tell the particulars of every circumstance that occurs, while others would kill us if we did. It is not so much what to publish in the paper, but what to keep out that worries the majority of pencil pushers.

—Bennett & Dale, the later being Clement Dale, Esq, of Bellefonte, who have been operating a saw mill at Glenn Harris, up along the Snow Shoe railroad have about closed negotiations for nearly five thousand acres of timber land in that vicinity. When the deal is closed Al Dale, Esq., is going to take off his coat, roll up his sleeves and help to manage the enterprise. And the probabilities are that he will wear diamonds yet. The opportunity here is a good one to make some money; we hope that our friends some day live to enjoy them selves on Easy street.

—Here is a new cat story for which the Johnstown Tribune vouches: A youngster in a family in a Johnstown suburb had a tremendous boil on his leg, but was so crabbed that he would not allow any body to apply the probe when the time came, and so suffered beyond the period when he should have had relief. Finally he was practically worn out with the pain and fell asleep by the kitchen stove, where he was left alone for some time. During the period of his sound sleep the family cat came along, ate off the bread and milk poultice on the boil, then bit into the boil itself and performed the surgical operation that the youngster wouldn't hear to before. After that, everything went along as it should, though there is some talk of prosecuting the cat for practicing surgery without a diploma.

—Rural free delivery mail carriers must present a neat appearance and also keep their horses and vehicles in such condition as will not cause Uncle Sam to be ashamed of either of them. The following order has been issued to the rural carriers by the postmaster general to postmasters: "Postmasters at rural delivery offices will inform rural carriers under their supervision that while on duty they are requested to present a neat personal appearance; that the vehicle used by them must be suited to the service, kept in good order and presentable, and that the animals used by the carriers in serving their routes must be fit to work and such as not to reflect discredit upon the service. Laxity in these matters by rural carriers will be immediately reported to this office by postmasters."

—22 days to Thanksgiving.

—Mrs. Coburn is confined to her home with illness.

—The love of praise never made any man worse, and has made many a man better.

—Mrs. John P. Harris, entertained twelve ladies Monday at a Turkey dinner.

—Fear of sin has made a great many more Christians than the love of virtue has.

—A good character, good habits, and iron industry are impregnable to the assaults of all the ill luck that fools ever dream of.

—As soon as you get over the election worry, you'll have to begin scratching to get money for Christmas. So troubles, it appears, never cease.

—Annual Mission Day services in St. John's Reformed Church next Sunday morning at 11 o'clock in which the Sunday School and congregation will unite.

—Stops itching instantly. Cures piles, eczema, salt rheumatism, tetter, itch, hives, herbes, scabies—Doan's Ointment. At any drug store.

Whenever you have any sympathy to bestow, direct it towards the young woman who never used Hollister's Rocky Mountain Tea or Tablets 35 cents. C. M. Parrish.

—California oranges, sweet fruit, fine white malaga grapes, Florida grape fruit, new raisins, apricots and peaches, golden yellow granulated corn meal, elgin creamery butter, finest full cream cheese.

Oct. 26, 1-mo SECHLER & Co.

Occasionally one has the fortune to meet women who are ideal in looks and figure, Ninety-nine times out of a hundred you will find she takes Hollister's Rock Tea. Tea or Tablets, 35 cents. C. M. Parrish.

—Grand Templer Mrs. E. Lockard, visited the Ladies Temple No. 148 Queen Temple Monday night, they report having had a very pleasant and profitable meeting, choice refreshments consisting of ice cream and cake were served.

—The Epworth League of the M. E. Church will hold a reception for the new members received during contest. There will be a good literary programe Good singing, and special music by Junior Orchestra. New members are specially requested to be present. It will be held Thursday.

—The Clearfield Fire Brick works, known as No. 3 of the Bigler works, are to be enlarged. Six new kilns will be erected and the yard will be increased 150 yards in length and thus 4 000 square yards in length and thus 4,000 square yards of floor space will be secured in addition to that already in use.

—The old Bilger homestead at Arctic Springs, in Rush township, for years a famous resort for picnic parties, was entirely destroyed by fire on Monday night, J. E. Horn was the lessee of the property and all his household furnishings was destroyed while an old gentleman who was caretaker of the propertly narrowly escaped with his life.

—Now that November is here the Panthers have about completed arrangements for their annual deer hunt the last two weeks of the month. Those who are entitled to go are Jno. and A. Linn McGinley, John and Andrew Knisely, M. A. Jackson, Harry F. Gerberich, C. Bruce Garman, W. C. Cassidy, R. S. Brouse, Lew Wallace and Thomas Moore of Philadelphia. Jacob Jury will be taken along as chief cook and Fred Lane as man-of-all-work.

—Edward Hill, formerly a gunner in the United States navy, but of late breaking on the Pennsylvania Railroad, was very badly injured in a wreck between Sunbury and Harrisburg last Friday night. He was taken to the hospital in Sunbury and Saturday his wife and little child went to his bedside. He is reported as getting along nicely and will recover. He is married to a daughter of Daniel Snyder of this place.

—Miss Julia McClellen gave a masquerade party at the home of John Watson on Hallow'en night. All had a pleasant time and refreshments were served at a late hour. Those present were as follows; Misses Julia McClellan, Helen Hamilton, Pearl Derstine, Marjorie Richard, Annie Johnson, Ella Estright, Catherine McCoy Blanche and Mabel Gengher, Mr. and Mrs. J. Watson, and Mr. and Mrs. W. McClellen. Messers Grassmeyer, Franks, Johnson, Green, Shroyer, Bryan, Rager, Taylor, Knapp, Jones and Estright.

—A Philadelphia boy's school essay ran as follows: "Hensis curious animals. They don't have no eyes, nor no teeth nor no ears. The outside of the hen is generally put into pillows and feather dusters. The inside of the hen is sometimes filled up with marbles and shirt buttons and sich. The hen is very much smaller than a good many other animals, but they'll dig up more tomatoe plants than anything that ain't a hen. Hens is very useful to lay eggs for cakes and pies. I like pie. Skinny Blake eat so much pie once that it sent him into the collery. Hens has got wings, and can fly when they are scart, I cut my Uncle William's hen's neck off with a hatchet and it scart her to death. Hens sometimes makes very fine spring chickens."—Philadelphia Ledger.

Bellefonte Academy Wins.

The Bellefonte Academy foot ball team covered itself with glory Tuesday when it defeated the Williamsport High School eleven by the score of 5-0, Pantall making a beautiful run for a touchdown aided by excellent interference. The game was played on the Dickinson Seminary grounds before a large crowd of spectators and ho'd a double interest attached to it in that it settled the tie existing between the two teams, each having won three games out of the last seven played, while one was a tie game. The Academy outplayed Williamsport in every part of the game, the small score of 5-0 in no way expressing the superiority of the Academy's play. Two or three times the Bellefonte boys had the ball very near the opponent's good line but did'nt quite make the coveted touchdown. Every player on the victorious eleven was right in the game from the start to the finish.

The line up—

W. H. S.	Position	B. A.
Painter	centre	McCaslin
Brown	L. G.	McCreight
Carter	L. T.	Dunsmore Pentz
Troxell	L. E.	Pantall

Lyon, Kieter	R. T.	Lyon
Logue, Cr'mb'g	R. E.	Armstrong
Updegraff	Quarter	Fullerton
Shay (Capt)	L. H.	Tompkins
Hartman	R. H.	Smith, Mitchell
Kinley	Full	(Capt) Weaver

Referee—Duke; Umpire—Rothfuss, head linesman, Dugan. timekeeper, Brown Hughes. touchdown, Pantall, time of halves, twenty minutes

Investor's Take Warning.

Mr. James R. Hughes has been corresponding recently with District Attorney Jerome of New York City, urging him to investigate the methods of the Douglass Lacy Company of New York City, promoters of mining and lumber enterprises. There has been a strong conviction prevailing among the Bellefonte stock holders for many months that the Douglas Lacy Company is a fraud and should be exposed. District Attorney Jerome wrote to Mr. Hughes Friday as follows:

October 31st. 1906.

PROF. JAMES R. HUGHES,

Dear Sir:

In reply to your letters of October 27th and 30th, I beg to state that the company you refer to therein has been the subject of considerable investigation both by the Police Department of this city and by the United States Postal Authorities. We would be glad to be able to take some action to prevent the continuance of such crimes as they seem to have been committing. It is, however, necessary to procure evidence of such offense.

If, when you come to this city, you will call upon my assistant, Mr. Smyth, he will be glad to review the whole matter with you.

Yours Truly,

WM. TRAVERS JEROME.

District Attorney.

The above letter only confirms the suspicion of our victimized citizens in Bellefonte and Centre County and is printed as a warning to every one who might be tempted to invest in the enterprises fostered and promoted by this company.

Will all the county papers please copy.

The Matrimonial Market.

The following marriage licenses were issued during the past week by Register Earle C. Tuten.

Lizzie Verdilla Hazel et bar to Katharine Musser. Oct. 20, 1906, land in Spring twp; consideration $200.00

Death of Edward Dowling.

Edward Dowling expired on Saturday morning at his home. Two weeks ago Mr. Dowling was stricken with apoplexy and never rallied. He was 65 years old. For 40 years he has resided in Renovo, where he won many friends by his genial manner and his rigid devotion to whatever he believed his duty. His birth place was Curtin, Pa. He served through the civil war and was a member of Bucktail Post, of Renovo. Always a Democrat, he represented his ward for four years in the town council. He is survived by his wife and five children. A brother, James Dowling, of Renovo, and a sister, Mrs. T. McCafferty, of Bellefonte, also survive. Funeral services were held in St. Joseph's Catholic church at 9.15 on Tuesday morning.

Death of Charles Ward

Charles Ward, a native of Bellefonte, but for many years a resident of Brooklyn, N. Y,, died in the Long Island, hospital Monday morning of pneumonia after an illness of two days duration. He was the son of Mrs. Ruth Ward, who taught school here many years ago. Surviving him are his wife, one son and two daughters. He was 51 years of age. He was a brother of J. Montgomery Ward of New York city.

The remains were brought to Bellefonte Wednesday and taken to the home of W. I. Fleming on Penn street where funeral services were held at 10 a. m. conducted by Rev. Stein. Interment in the Union cemetery.

One of the splendid results of physical beautifying is it's tendency to create an ambition to be beautiful in every way. When a woman gets a good start by taking Hollister's Rocky Mountain Tea she is all right. Tea or Tablets, 35 cents. C. M. Parrish.

The Following Resolutions.

The following resolution was adopted at the meeting of the Ministerium of Bellefonte, Pa., Monday, November 5, 1906:—

WHEREAS, The Reverend A. Davidson, pastor of the United Brethren Church, has recently been removed by the authorities of said Church to another field of labor; we, the members of the Ministerium of Bellefonte, Pa,, desire to give formal expression of our esteem and appreciation of this godly Christian Minister and co-laborer in the vineyard of the Master, and our sense of loss in his removal from our midst. We have come to love him as a brother, and esteem him highly for his work's sake. He is a true Christian gentleman of the best type, and a Minister of the Gospel who does real honor to his Master's cause. As a member of this association, he was always the kindly courteous, affable, and "brotherly" brother. For the term just past, the president of this association, we bear testimony to his fidelity to all the duties pertaining to that office. As a member of this organization, he was ever ready to actively support every good work for the general good of the Church and community. Our love and prayers follow him to his new Charge, where we ardently wish for him a most fruitful ministry, and the abounding blessings of our Lord and Master for himself and family.

Resolved, That a copy of this minute be recorded among the archives of this association, be published in the several papers of Bellefonte, and sent to the Rev. A. Davidson, Madison, Pa.

J. ALLISON PLATTS, President.

JAMES B. STEIN, Secretary.

The following resolution was adopted at the meeting of the Ministerium of Bellefonte, Pa., Monday, November 5, 1906:—

WHEREAS, The Reverend W. M. Rearick, pastor of the Evangelical Lutheran Church, has accepted a call to another charge, and recently has removed from our midst; we, the members of the Ministerium of Bellefonte. Pa., in this formal way, desire to record our brotherly appreciation of the Rev. Mr. Rearick and our sense of loss in his removal. In our brief fellowship with him in this association, and in the general Christian work in this community, we have learned to regard the Rev. Mr. Rearick as a true Christian Minister,—a workman of God of more than ordinary ability and consecration devotion. We esteem him most highly as a Christian gentleman, and as a brother in the Ministerial office and Secretary of this association at the time of his removal, we, the members of the Ministerium, bear testimony to his fidelity and devotion to every trust and interest pertaining to the social, intellectual, and spiritual welfare of the Church and community at large. Gone to labor in other fields, he will retain his place in affection's memory, and we wish for him the largest measure of success in his new Charge, and pray that the richest blessings of our common Lord and Master may ever abide upon him and his estimable family.

Resolved, That a copy of this Resolution be forwarded to the Rev. W. M. Rearick, Mifflinburg, Pa., published in the several papers of Bellefonte, and recorded in the minutes of this Association.

J. ALLISON PLATTS, President.

JAMES B. STEIN, Secretary.

Resolutions of Respect.

WHEREAS, it has pleased our all wise and ever merciful Father to remove from our midst our companion, Maggie Thompson, be it therefore

Resolved, first—That Queen Temple No. 148, L. G. E., while bowing humble and submissive to the will of our Heavenly Father, and while we have lost a loving sister and companion, and her family a kind wife and mother, yet we look to a higher power for comfort in this our bereavement.

Second—That, our Charter be draped in mourning for a period of thirty days, and, a copy of these resolutions be sent to the family of our deceased companion under seal of the Temple.
